The Ministry of Education also wishes to thank many others who contributed to the development of this curriculum:

- First Nations teachers
- university faculties
- other educators and reviewers.

This curriculum is also based on the Western and Northern Canadian Protocol (WNCP) *The Common Curriculum Framework for English Language Arts (Kindergarten to Grade 12)* (1998).

Introduction

English language arts (ELA) is a Required Area of Study in Saskatchewan's Core Curriculum. The purpose of this curriculum is to outline the provincial requirements for Grade 6 English Language Arts.

Time Allotment

The Saskatchewan Ministry of Education has established a provincial policy for the amount of time that must be allocated to language arts instruction at each grade level. The required time allotted to Grade 6 is as follows:

Required Minutes for English Language Arts
510 minutes per week or approximately 100 minutes each day

Curriculum Content

This curriculum provides the intended learning outcomes that Grade 6 students are expected to achieve in English language arts by the end of the year. Indicators are included to provide the breadth and depth of what students should know and be able to do in order to achieve the outcomes.

The learning experiences planned for students will support student achievement of the provincial Goals of Education through attending to the Broad Areas of Learning for Saskatchewan and the Cross-curricular Competencies described on the following pages.

The English language arts curriculum provides:

- direction for supporting student achievement of the Broad Areas of Learning and the Cross-curricular Competencies
- the K-12 aim and goals for English language arts in Saskatchewan
- characteristics of an effective English language arts program
- Grade 6 English Language Arts outcomes and indicators
- sample assessment and evaluation criteria for outcomes in English language arts
- connections with other areas of study.

Additional support resources will appear online.

Core Curriculum

Core Curriculum is intended to provide all Saskatchewan students with an education that will serve them well regardless of their choices after leaving school. Through its various components and initiatives, Core Curriculum supports the achievement of the Goals of Education for Saskatchewan. For current information regarding Core Curriculum, please refer to *Core Curriculum: Principles, Time Allocations, and Credit Policy* (August 2007) found on the Saskatchewan Ministry of Education website.

Broad Areas of Learning

There are three Broad Areas of Learning that reflect Saskatchewan's Goals of Education. K-12 English language arts contributes to the Goals of Education through helping students achieve knowledge, skills, and attitudes related to these Broad Areas of Learning.

Building Lifelong Learners

Students who are engaged in constructing and applying English language arts knowledge naturally build a positive disposition towards learning. Throughout their study of English language arts, students gain understandings, skills, and strategies to become more competent and confident language users.

Related to the following Goals of Education:

- *Basic Skills*
- *Lifelong Learning*
- *Self Concept Development*
- *Positive Lifestyle*

Building a Sense of Self and Community

To learn English language arts, students need to not only use the English language but also to interact with each other. Through the English language arts, students learn about themselves, others, and the world around them. They use language to define who they are and to explore who they might become. They use language to interact and respond effectively with others and to build community.

Related to the following Goals of Education:

- *Understanding and Relating to Others*
- *Self Concept Development*
- *Positive Lifestyle*
- *Spiritual Development*

Building Engaged Citizens

In the English language arts, students learn how language can empower them to make a difference in their personal, peer, family, and community lives. Language gives them a sense of agency and an ability to make a difference in their community and the world in which they live.

Related to the following Goals of Education:

- *Understanding and Relating to Others*
- *Positive Lifestyle*
- *Career and Consumer Decisions*
- *Membership in Society*
- *Growing with Change*

Cross-curricular Competencies

The Cross-curricular Competencies are four interrelated areas containing understandings, values, skills, and processes which are considered important for learning in all areas of study. These competencies reflect the Common Essential Learnings and are intended to be addressed in each area of study at each grade level.

Developing Thinking

Learners construct knowledge to make sense of the world around them. They develop understanding by building on what is already known. This key competency concerns the ability to make sense of information, experiences, and ideas through thinking contextually, critically, and creatively. English language arts is inquiry-based, and students use their language and thinking skills to explore a range of topics, issues, and themes.

- *thinking and learning contextually*
- *thinking and learning creatively*
- *thinking and learning critically.*

Developing Identity and Interdependence

The ability to act autonomously in an interdependent world requires an awareness of the natural environment, of social and cultural expectations, and of the possibilities for individual and group accomplishments. It assumes the possession of a positive self-concept and the ability to live in harmony with others and with the natural and constructed world. Achieving this competency requires understanding, valuing, and caring for oneself; understanding, valuing, and respecting human diversity and human rights and responsibilities; and understanding and valuing social and environmental interdependence and sustainability. English language arts requires students to explore ideas and issues of identity, social responsibility, diversity, sustainability, and efficacy. Students study texts and ideas about personal and philosophical; social, historical, and cultural; imaginative and literary; communicative; and environmental and technological topics.

- *understanding, valuing, and caring for oneself*
- *understanding, valuing, and respecting human diversity and human rights and responsibilities*
- *understanding and valuing social, economic, and environmental interdependence and sustainability.*

Developing Literacies

Literacies are multi-faceted and provide a variety of ways, including the use of various language systems and media, to interpret the world and express understanding of it. Literacies involve the evolution of interrelated skills, strategies, and knowledge that facilitate an individual's ability to participate fully and equitably in a variety of roles and contexts – school, home, and local and global communities. To achieve this

- *constructing knowledge related to various literacies*
- *exploring and interpreting the world through various literacies*
- *expressing understanding and communicating meaning using various literacies.*

competency requires developing skills, strategies, and knowledge related to various literacies in order to explore and interpret the world and communicate meaning. English language arts requires students to use different literacies, including language literacy, effectively and contextually to represent ideas and understanding in multiple, flexible ways.

Developing Social Responsibility

Social responsibility is how people positively contribute to their physical, social, and cultural environments. It requires the ability to participate with others in accomplishing shared or common goals. This competency is achieved through using moral reasoning processes, engaging in communitarian thinking and dialogue, and contributing to the well-being of others and the natural world. Socially responsible learners contribute to their physical, social, and cultural environments. In English language arts, students explore their social responsibility and work toward common goals to improve the lives of others and the natural and constructed world.

- *using moral reasoning processes*
- *engaging in communitarian thinking and dialogue*
- *contributing to the well-being of self, others, and the natural world.*

Aim and Goals of K-12 English Language Arts

The K-12 aim of the Saskatchewan English language arts curricula is to help students understand and appreciate language, and to use it confidently and competently in a variety of situations for learning, communication, work, life, and personal satisfaction.

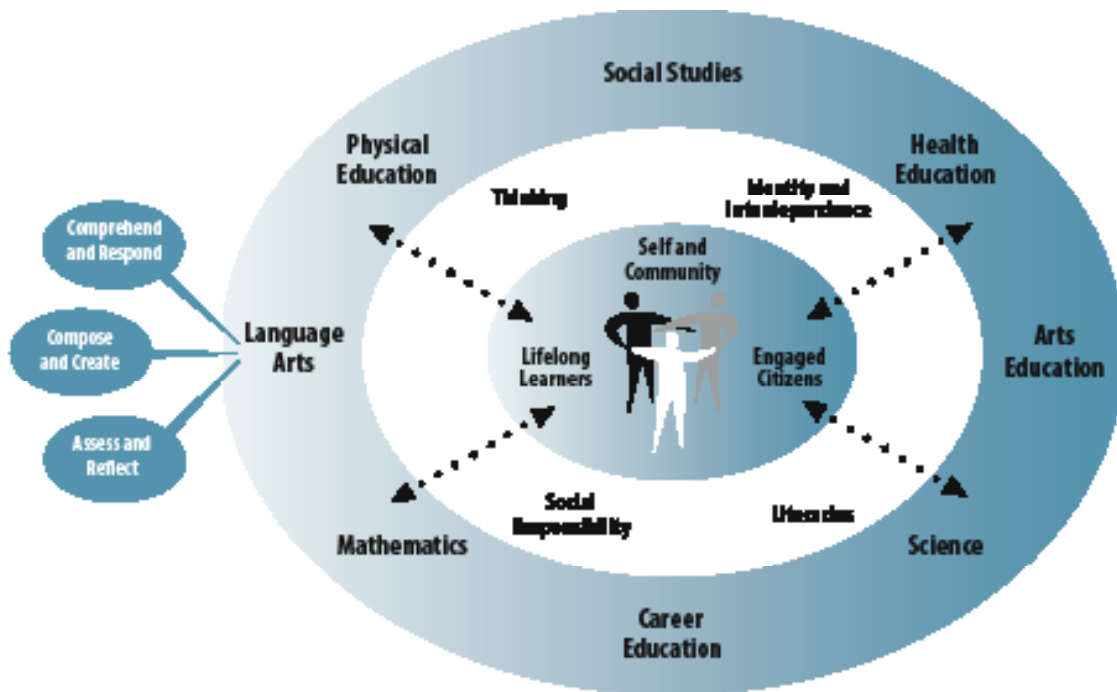

Goals are broad statements identifying what students are expected to know and be able to do upon completion of study in a particular subject (e.g., English language arts). The K-12 goals of the Saskatchewan English language arts curricula are to:

1. **Comprehend and Respond (CR).** Students will extend their abilities to view, listen to, read, comprehend, and respond to a range of contemporary and traditional grade-level texts in a variety of forms (oral, print, and other texts) from First Nations/Métis and other cultures for a variety of purposes including for learning, interest, and enjoyment. (Refer to sidebar.)
2. **Compose and Create (CC).** Students will extend their abilities to represent, speak, and write to explore and present thoughts, feelings, and experiences in a variety of forms for a variety of purposes and audiences. (Refer to sidebar.)

Students will also develop their abilities in using and learning about the appropriate before, during, and after strategies, and the pragmatic, textual, syntactical, semantic/lexical/morphological, graphophonic, and other language and communication cues and conventions. (See Glossary.)

3. Assess and Reflect (AR). Students will assess their own language skills; discuss the skills of effective viewers, representers, listeners, speakers, readers, and writers; and set goals for future improvement.

These goals, while reflecting what is important in English language arts, also provide “throughlines” to and from the Cross-curricular Competencies and the Broad Areas of Learning. Teachers need to ensure that the “throughlines” from each subject area are considered when planning and teaching.

Questions Derived from the Aim and Goals

The questions on the following page focus on the long-term abilities associated with the overall purpose and K-12 goals for the English language arts program. They recur in and give an overall focus to all instruction, assessment, and evaluation in English language arts.

Comprehend and Respond (CR):

- What is this text saying? Explicitly? Implicitly?
- How was the text created?
- What forms and conventions are used?
- In what context and for what purpose was the text created?
- How can I interpret the text?
- What evidence do I have to support this interpretation?
- What does this text have to say about identity, social responsibility, and efficacy (making a difference)?
- Whose voices are heard and whose are not?
- Why are viewing, listening, and reading important?

Compose and Create (CC):

- What do I know, and how can I express that?
- How can I best express these ideas for this audience and purpose?
- What forms can I use? What are the conventions of those forms?
- How can I communicate most clearly and effectively?
- Do my messages demonstrate a deep understanding of the subject matter?
- Are my compositions and presentations well-crafted, fully developed, coherent, and appropriate to my purpose and audience?
- To what extent is the voice, pen, or screen mightier than the sword?

Assess and Reflect (AR):

- Why is effective language usage and effective communication important?
- What are the characteristics of effective viewers, listeners, readers, representers, speakers, and writers? What do they do, feel, look like, or sound like?
- What are my teacher's and my personal expectations for viewing, listening, reading, representing, speaking, and writing?
- What are my personal goals for becoming a more effective viewer, listener, reader, representer, speaker, and writer? How will I achieve them?

An Effective English Language Arts Program

An English language arts program is effective when it is purposeful, dynamic, fulfilling, and authentic. This curriculum invites and challenges educators to think about education, schooling, and English language arts as it might be, rather than the way they might know it to be. How can schooling and English language arts be more purposeful, dynamic, fulfilling, and authentic? How can it help students become competent, confident users of the English language and, at the same time, become knowledgeable about themselves, their community, and the world as a whole in a deep and meaningful way? How can it help them find fulfillment, be socially responsible, and act in ways that will make their community and world better places? How can it help them become effective self-directed, self-regulated, strategic, and collaborative learners to meet the demands of personal, social, work, and global life in the 21st century?

“When a learner makes connections and learning takes place, it is because of focused teaching” (Fullan, Hill, & Crévola, 2006, p. 34). Focused teaching requires:

- a detailed map of what is expected that students will know and be able to do, clearly stated in outcomes and associated indicators
- a detailed knowledge of how best to teach to these learning outcomes in the classroom, including explicit teaching strategies and methods and classroom routines
- a set of powerful and aligned assessment and evaluation tools tied to the outcomes (Fullan, Hill, & Crévola, 2006, pp. 36-37).

This curriculum is designed to be the starting point for the detailed map, knowledge, and assessment and evaluation tools that teachers must know and understand in order to help students learn effectively through the English language arts. It is the starting point that will allow English language arts teachers “to develop and deepen students’ understanding of important ideas and a process in the discipline[s] equipping them to transfer their learning in meaningful and effective ways, and cultivating lifelong habits of mind” (Wiggins & McTighe, 2007, p. 13).

Language literacy is the foundation to a lifelong learning process that empowers individuals to draw on the gifts of mind, body, heart, and spirit toward the fulfillment of personal and family life and community responsibility.

Language literacy involves a continuum of interrelated skills, practices, and learnings that contribute to the development of an individual’s ability to understand, communicate, and participate in a variety of roles (e.g., parent, citizen, and worker) and settings (e.g., in the home, at work, in education, and in the community). These include listening and speaking, reading and writing, viewing and representing. (Saskatchewan Literacy Commission, 2004, p. 1)

English Language Arts 6

What ELA Is	What ELA Is Not
Using visual, multimedia, oral, and written communication competently, appropriately, and effectively for a range of purposes	Using only print resources with a fictional emphasis for a limited range of purposes (usually isolated to a school task)
Recognizing the central role of language in communicating, thinking, and learning	Letting “literature” drive the program
Setting meaningful and relevant contexts for teaching and learning including connections to students’ experiences, knowledge, and personal and cultural identity	Giving isolated language activities and using unrelated texts
Helping students know what and why they are learning and doing something (i.e., outcomes, indicators, and exemplars)	Having only teacher awareness of the outcomes and not sharing them with students
Teaching and learning for “deep understanding” (including using compelling questions as a focus)	Asking and answering solely teacher-directed questions
Making meaning of ideas or information received (when viewing, listening, and reading)	Answering knowledge/comprehension questions, individually, after reading print texts
Creating meaning for themselves and others (when representing, speaking, and writing)	Using only limited forms of communicating, usually writing
Using critical, creative, and metacognitive processes to make sense of ideas, information, and experiences	Accessing and accepting isolated information at face value
Creating, critiquing, and applying knowledge, not just “having” it	Gaining knowledge but not using it
Participating, contributing, and making connections to the world beyond the classroom	Not considering the implications of issues within the broader community
Questioning students’ assumptions about the world and their place in it	Accepting a Eurocentric and complacent view of the world
Using a variety of strategies (e.g., Before, During, and After) depending upon the task	Following only teacher-directed skills and strategies and spending time on isolated skill and drill
Understanding how language really works (e.g., discourse, registers, sociolinguistic features and functions, cues and conventions) and consciously using “grammatical” conventions for purpose and effect	Learning “grammar” for “grammar’s” sake
Engaging in inquiry learning	Doing a project or, if time permits, a series of activities to bring closure
Recognizing and respecting a range of worldviews	Not thinking critically about whose worldview is presented
Using assessment and evaluation to guide and improve learning and provide opportunities to reflect, monitor, self-assess, and set targets for learning	Not reflecting on or analyzing own progress
Showing proof of learning	Avoiding any accountability for own learning
Reflecting on own learning and literacy	Assuming that the responsibility for learning and literacy lies with the teacher
Developing the disposition to lifelong learning	Setting short-term goals for learning (e.g., “Is it on the test?”)
Using contemporary technologies to learn and to document understanding	Using limited or inappropriate technology for technology’s sake

Through a “deep” understanding of this curriculum (Fullan, Hill, & Crévola, 2006) and knowing when to use effective instructional, assessment, and classroom management strategies based on sound research (Marzano, 2007), English language arts teachers can help all students become competent and confident language users.

An Effective English Language Arts Program:

- focuses on grade-specific outcomes
- provides meaningful contexts
- encourages inquiry, questioning, and efficacy
- focuses on language
- teaches critical and powerful learning strategies
- includes a range of texts.

Focuses on Grade-specific Outcomes

An effective English language arts program focuses on grade-specific curricula outcomes. Student learning **outcomes** describe what students will learn in a particular discipline over a specific time frame (e.g., Grade 6). They specify the skills, knowledge, and attitudes that students are expected to know and be able to demonstrate.

Critical Characteristics of Outcomes and Indicators

Outcomes:

- focus on what students will learn rather than what teachers will teach
- specify the skills, strategies, abilities, understandings, and knowledge students are expected to be able to demonstrate
- are observable, assessable, and attainable
- are grade and subject-specific
- are supported by indicators which provide the breadth and depth of expectations
- are written using action-based verbs
- identify the most important understandings and abilities to be developed in the specific grade level
- guide course, unit, and lesson planning.

Indicators:

- are a representative list of what students need to know and/or be able to do in order to achieve an outcome
- represent the breadth and the depth of the outcome.

Note: Additional and/or alternative indicators may be developed but they must be reflective of and consistent with the breadth and depth that is defined by the given indicators.

English Language Arts 6

English Language Arts Goals and Outcomes Overview

Each of the three goals for English language arts has a set of outcomes for the specific grade level. The following are the outcomes for Grade 6 ELA.

Comprehend and Respond (CR). Students will extend their abilities to view, listen to, read, comprehend, and respond to a range of contemporary and traditional grade-level texts from First Nations, Métis, and other cultures in a variety of forms (oral, print, and other texts) for a variety of purposes including for learning, interest, and enjoyment.

CR6.1 View, listen to, read, comprehend, and respond to a variety of texts that address identity (e.g., Growing Up), social responsibility (e.g., Going the Distance), and efficacy (e.g., Making Our Community More Peaceful).

CR6.2 Select and use appropriate strategies to construct meaning before (e.g., considering what they know and need to know about the topic), during (e.g., making connections to prior knowledge and experiences), and after (e.g., drawing conclusions) viewing, listening, and reading.

CR6.3 Use pragmatic (e.g., function and purpose of texts), textual (e.g., form/genre, sequence of ideas), syntactic (e.g., word order and emphasis on particular words), semantic/lexical/morphological (e.g., capture particular aspect of intended meaning), graphophonic (e.g., sound-symbol patterns and relationships), and other cues (e.g., the speaker's non-verbal cues) to construct and confirm meaning.

CR6.4 View, respond, and demonstrate comprehension of visual and multimedia grade-appropriate texts including traditional and contemporary texts from First Nations, Métis, and other cultures containing special features (e.g., the visual components of magazines, newspapers, websites, comic books, broadcast media, video, and advertising).

CR6.5 Listen purposefully to understand, respond, and analyze oral information and ideas from a range of texts including narratives, instructions, oral explanations and reports, and opinions.

CR6.6 Read and demonstrate comprehension and interpretation of grade-appropriate texts including traditional and contemporary prose fiction, poetry, and plays from First Nations, Métis, and other cultures.

CR6.7 Read independently and demonstrate comprehension of a variety of information texts with some specialized language including grade-level instructional materials, non-fiction books, reports and articles from magazines and journals, reference materials, and written instructions.

CR6.8 Read Grade 6 appropriate texts to increase fluency (120-160 wcpm orally; 160-210 silently) and expression.

Compose and Create (CC). Students will extend their abilities to speak, write, and use other forms of representation to explore and present thoughts, feelings, and experiences in a variety of forms for a variety of purposes and audiences.

CC6.1 Create various visual, multimedia, oral, and written texts that explore identity (e.g., Your Choices), social responsibility (e.g., Looking for Answers), and efficacy (e.g., Systems for Living).

CC6.2 Select and use the appropriate strategies to communicate meaning before (e.g., identifying purpose and audience), during (e.g., acknowledging sources), and after (e.g., revising to enhance clarity) speaking, writing, and other representing activities.

CC6.3 Use pragmatic (e.g., function and purpose), textual (e.g., paragraphs), syntactic (e.g., complete sentences with appropriate subordination and modification), semantic/lexical/morphological (e.g., figurative words), graphophonic (e.g., spelling strategies), and other cues (e.g., appropriate volume and intonation) to construct and to communicate meaning.

CC6.4 Create and present a variety of representations that communicate ideas and information to inform or persuade and to entertain an audience, including illustrations, diagrams, posters, displays, and cartoons.

CC6.5 Use oral language to interact appropriately with others in pairs, and small and large group situations (e.g., asking questions to explore others' ideas and viewpoints, discussing and comparing ideas and opinions, completing tasks and contributing to group success).

CC6.6 Use oral language appropriately to express a range of information and ideas in formal and informal situations including presenting an oral report based on research, a demonstration, and a short dramatization.

CC6.7 Write to describe a place; to narrate an incident from own experience in a multi-paragraph composition and in a friendly letter; to explain and inform in multi-step directions and a short report explaining a problem and providing a solution; and, to persuade to support a viewpoint or stand.

CC6.8 Experiment with a variety of text forms (e.g., a peer interview, presentation at an assembly, poem, letter to parents, short review, poster, tableau, graphic organizer) and techniques (e.g., surprise ending).

CC6.9 Prepare a teacher-guided inquiry report related to a stand on a topic, theme, or issue studied in English language arts.

Assess and Reflect on Language Abilities (AR). Students will extend their abilities to assess and reflect on their own language skills, discuss the skills of effective viewers, representers, listeners, speakers, readers, and writers, and set goals for future improvement.

AR6.1 Consider which viewing, listening, reading, representing, speaking, and writing strategies work best for each task and situation.

AR6.2 Appraise own viewing, listening, reading, representing, speaking, and writing skills and strategies and set goals for improvement.

AR6.3 Appraise own and others' work for clarity.

Each outcome is supported by indicators which provide the breadth and depth of the expectations for the outcomes. The outcomes and their indicators are listed on pages 33-46. Teachers are encouraged to build upon outcomes in the previous grades and provide scaffolding to support student achievement of the Grade 6 outcomes.

Provides Meaningful Contexts

An effective ELA program provides **meaningful contexts** for students to learn about language. The English language arts program is designed for students to extend their language skills and strategies and become competent and confident users of all six language arts strands through many opportunities to view and represent, listen and speak, and read and write in meaningful contexts.

If students are to become lifelong learners, develop a sense of self and connection to others, and become engaged citizens and achieve the Cross-curricular Competencies and the outcomes for English language arts, students require meaningful, authentic contexts for learning. Students need many opportunities to explore questions and concerns about themselves and about the world.

The following contexts provide a focus to language learning and give students an opportunity to explore **big ideas** (i.e., overarching understandings) that have enduring values beyond the classroom:

- A **personal and philosophical** focus or context gives students opportunities to explore their identity and their self-concept. The development of the learning spirit inside each student comes from the heart and mind connection that is revealed through each student's reflection on personal feelings, self-image, influential life forces, ideas, belief systems, values, and ways of knowing. Who am I, what is my place, and where am I going? What does the future hold for me?
- A **social, cultural, and historical** focus or context gives students opportunities to explore relationships with others, community, culture, customs, other ways of knowing, national and international events and issues, and the history of humanity. What are my rights and responsibilities in communities, cultures, and economies? How and who am I in relation to communities, cultures, and economies? How am I defined by these relationships?
- An **imaginative and literary** focus or context gives students opportunities to use their intuition and imagination to explore alternative worlds and possibilities; different types of classical and contemporary genres including fantasy, science fiction, and humour; and particular authors. How do I use my imagination and intuition and that of others to understand and relate to people, the community, the world, and society in a positive way? How do I foster imaginative

- ideas of self and others? How do I use intuitive hunches to support creative problem solving or inquiry approaches?
- A **communicative** focus or context gives students opportunities to explore different methods, forms, and issues related to language, communication, and the mass media. How do I make sense of and communicate with the world? How do I support communication with differing audiences? How do I know if communication is effective?
 - An **environmental and technological** focus or context gives students opportunities to explore the natural and constructed world including the land, the sky, animals, the sea, space, technologies, and environmental and technological issues. How do I describe, analyze, and shape the world around me? How does that natural and technological world affect and shape me?

Each English language arts unit of study can be related to and developed under one or more of these broader contexts. Each context can be explored at each grade. Each context provides opportunities for integration with topics of study in other subject areas.

Teachers in Grade 6 should plan a minimum of **five units** for the year, basing at least one unit on each of the five contexts. The chart on page 15 gives an overview of possible unit themes and topics for each context and each grade level.

In addition to considering the five contexts, Middle Level English language arts teachers need to think about the **types of units** to plan. Language arts units, designed around the themes and topics within each context, can ensure that the objectives for the language strands and conventions are learned in meaningful ways. Minimal guidelines are provided for each type of unit.

Type of Unit	Number of Units per Year
Multi-genre Thematic	3 (minimum)
Multi-genre Inquiry and/or Interdisciplinary	1 (minimum)
Author or Genre Study	1 (maximum)

A **multi-genre thematic** unit (e.g., Growing Up unit in Grade 6) is built around a theme or topic from one of the contexts and includes a range of prose fiction and non-fiction, poetry, plays, and other texts. This is the most common type of English language arts unit because it allows teachers to vary activities within a broad theme or topic to suit the various ability levels of students while supporting their achievement of outcomes

How we envision literacy makes a difference. If we see it as meaning making and not meaning making plus inquiry, we fail to envision all that literacy might be. If we see literacy as language and not language plus other sign systems, we also fail to envision all that literacy might be. (Harste, 2000, p. 1)

English Language Arts 6

for their respective grade. A **minimum** of **three** multi-genre thematic units is recommended.

A **multi-genre inquiry and/or interdisciplinary** unit (e.g., Taking Flight unit in Grade 6) is usually built around a theme or topic that is related to an important question(s) for inquiry and research. The emphasis in an inquiry unit is on “finding out” the answers to a question or questions that the students have about the theme or topic and then using the inquiry process to guide their activities in the unit. When the unit is interdisciplinary, it considers and addresses outcomes from English language arts and other area(s) of study. A **minimum** of **one** inquiry/interdisciplinary unit per year is recommended. Any multigenre thematic or author/genre study unit can become an inquiry unit.

Through the inquiry or research process, students satisfy their natural curiosity and develop skills and strategies for lifelong learning.

(Western Canadian Protocol for Collaboration in Basic Education, 1998, p. 33)

An **author or genre study** unit focuses on the works of a specific author or illustrator or on a specific genre (e.g., the novel or narrative texts). Because of the limited texts used in an author or genre study, a **maximum** of **one** per year is recommended.

Planning Units of Study in an Effective English Language Arts Program

Units of Study	Essential Aspects
Units provide meaningful contexts and foci for students to explore the topics and texts that are important to young people everywhere. Units in English language arts allow students not only to learn how language works in meaningful situations but also to develop the disposition for learning for life, a sense of self and connection to others, and, as engaged citizens, a capacity to make a difference in the larger community.	Questions for deeper understanding that address the ideas and issues students need to think about throughout the unit (e.g., What is injustice? How are people treated fairly and unfairly? What are some of the injustices that need to be addressed in our community?).
	Strategies to explore and express their thoughts, ideas, feelings, and experiences as well as to inquire and to learn to use the English language and its conventions. Oral, written, and other texts explore the issues and provide opportunities to apply listening, speaking, reading, writing, viewing, and representing knowledge and skills.
	Individual as well as co-operative projects invite inquiry and bring closure and personal agency to their explorations (e.g., developing a campaign to make people aware of injustice).

Contexts and Suggested Themes and Topics for Middle Level English Language Arts Units

Contexts (one unit from each of the following)	Grade 6	Grade 7	Grade 8	Grade 9
<p>Personal and Philosophical Students are looking inward and focusing on self-image and self-esteem. They reflect on self and life, and on their beliefs and values and those of their society.</p>	<p>Growing Up or Into the Spotlight (Self and Relationships) or Your Choices</p>	<p>Participating and Giving Our Personal Best (Model Unit) or Finding the Courage or Exploring Thoughts, Feelings, and Ideas</p>	<p>Becoming Myself or In My Mirror or Telling One's Life Story</p>	<p>Exploring Loyalty, Love, and Relationships (Model Unit) (Semester II) or All that I Am – The Search for Self (Semester I)</p>
<p>Social, Cultural, and Historical Students look outward and examine their relationships with others, their community, and that of the world. They also consider the historical context.</p>	<p>Peace and Conflict (Model Unit) or Going the Distance or Looking for Answers or Canada's Links to the World</p>	<p>Voices Through the Ages – Reconstructing the Past or Building a Better World or Young People in History or Heroes Gallery</p>	<p>Adventure and Adventurers (Model Unit) or Is it Fair? – In Search of Justice or Building a Better World or Heroic Ways</p>	<p>Conflicts, Challenges, Issues, and Choices – Doing the Right Thing (Model Unit) (Semester I) or Taking Risks; Setting Limits or Equal Opportunity</p>
<p>Imaginative and Literary Students consider imaginary worlds and possibilities (e.g., What if...?) as well as a range of genres and authors.</p>	<p>Tales – Heroes, Deeds, and Wonders or Suspense or Marvels Then and Now or Fantastic Fiction</p>	<p>Mysteries Uncanny Incidents, and Unusual Happenings (Model Unit) or Imagined Worlds or Actions and Reactions</p>	<p>Timeless Narratives of the First Nations and Greek Peoples (Model Unit) or Other Skies or Mystery Maze</p>	<p>Indigenous and Norse Narratives (Model Unit) (Semester 1) or Looking Beyond - Imagining New Worlds and the Future or Laugh Lines or Endless Possibilities</p>
<p>Communicative Students consider the role of communication in their lives and the ideas and technologies that help people become effective communicators.</p>	<p>Messages or Scripts to Act Out or Off the Page or Biographies or Science Fiction</p>	<p>Lighten Up! – On the Funny Side or Thinking for Oneself or It's Showtime!</p>	<p>Burning Questions or Fast Forward or Popular Culture or Beneath the Ink or Buy It, You'll Like It</p>	<p>Our Shared Linguistic and Cultural Roots (Model Unit) (Semester II) or Listen to the Music or Side by Side or Image and Information</p>
<p>Environmental and Technological Students explore the elements of the natural and constructed world and the role of technology and related developments in their society.</p>	<p>Taking Flight (Model Unit) or Space, Stars, and Quasars or Systems for Living or Biodiversity or Electricity</p>	<p>Doing Our Part for Planet Earth or Think Outside the Box or Taking Action</p>	<p>An Eye on Our Natural and Technological Environment or Survival or Creating Turning Points</p>	<p>Surviving and Conquering (Model Unit) (Semester II) or Building a Better Planet or In Touch or Final Frontier</p>

Encourages Inquiry, Questioning, and Efficacy

An effective English language arts program provides opportunities for inquiry, questioning, and efficacy.

Inquiry learning provides students with opportunities to build knowledge, abilities, and inquiring habits of mind that lead to deeper understanding of their world and human experience. The inquiry process focuses on the development of compelling questions, formulated by teachers and students, to motivate and guide inquiries into topics, problems, and issues related to curriculum content and outcomes.

Inquiry is a philosophical stance rather than a set of strategies, activities, or a particular teaching method. As such, inquiry promotes intentional and thoughtful learning for teachers and children.

(Mills & Donnelly, 2001, p. xviii)

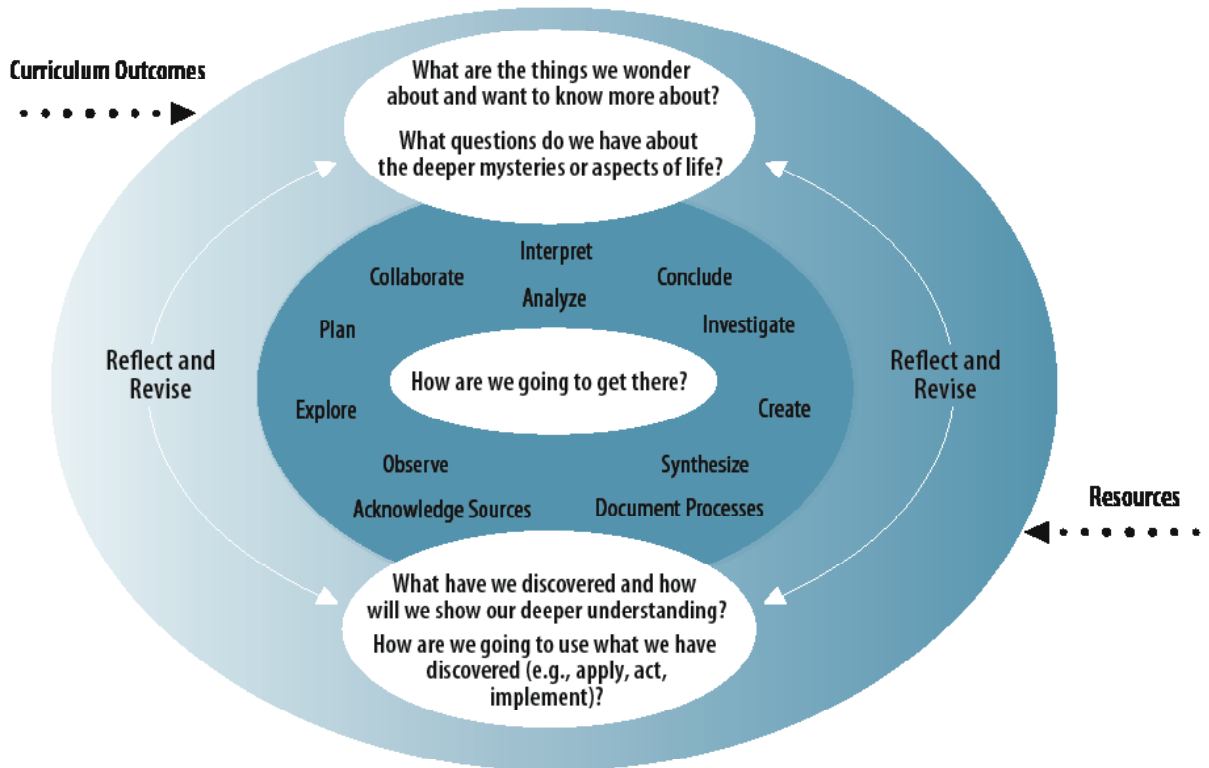

Inquiry is more than a simple instructional strategy. It is a philosophical approach to teaching and learning, grounded in constructivist research and methods, which engages students in investigations that lead to disciplinary and transdisciplinary understanding. Inquiry builds on students' inherent sense of curiosity and wonder, drawing on their diverse backgrounds, interests, and experiences. The process provides opportunities for students to become active participants in a collaborative search for meaning and understanding. Students who are engaged in inquiry:

- construct deep knowledge and deep understanding rather than passively receiving information
- are directly involved and engaged in the discovery of new knowledge
- encounter alternative perspectives and differing ideas that transform prior knowledge and experience into deep understandings
- transfer new knowledge and skills to new circumstances
- take ownership and responsibility for their ongoing learning and mastery of curriculum content and skills.

(Adapted from Kuhlthau & Todd, 2007)

Inquiry learning is not a step-by-step process, but rather a cyclical process, with various phases of the process being revisited and rethought as a result of students' discoveries, insights, and co-construction of new knowledge. The following graphic represents various phases of this cyclical inquiry process.

Constructing Understanding Through Inquiry

Inquiry prompts and motivates students to investigate topics within meaningful contexts. The inquiry process is not linear or lock-step, but is flexible and recursive. Experienced inquirers will move back and forth among various phases as new questions arise and as they become more comfortable with the process.

Well-formulated inquiry questions are broad in scope and rich in possibilities. Such questions encourage students to explore, observe, gather information, plan, analyze, interpret, synthesize, problem solve, apply critical and creative thinking, take risks, create, conclude, document, reflect on learning, and develop new questions for further inquiry.

Teachers and students can begin their inquiry at one or more curriculum entry points; however, the process may evolve into transdisciplinary integrated learning opportunities, as reflective of the holistic nature of our lives and interdependent global environment.

An important part of any inquiry process is student reflection on their learning and the documentation needed to assess the learning and make it visible to students. Student documentation of the inquiry process in English language arts may take the form of reflective journals, essays, notes, drafts, three-dimensional models, works of art, photographs, and video footage.

Effective Questions for Deeper Understanding

- *Cause genuine and relevant inquiry into the key ideas and core content*
- *Provide for thoughtful, lively discussion, sustained inquiry, and new understanding as well as more questions*
- *Require students to consider alternatives, weigh evidence, support their ideas, and justify their answers*
- *Stimulate vital, ongoing rethinking of ideas, assumptions, or prior lessons*
- *Spark meaningful connections with prior learning, personal experiences, and ways of knowing*
- *Naturally recur, creating opportunities for transfer to other situations and subjects.*

(Adapted from Wiggins & McTighe, 2005, p. 110)

Questions for deeper understanding are used to initiate and guide the inquiry and give students direction for developing deep understandings about a topic or issue under study. It is essential to develop questions that are evoked by student interests and have potential for rich and deep learning.

The process of constructing compelling questions can help students to grasp the important disciplinary or transdisciplinary ideas that are situated at the core of a particular curricular focus or context. These broad questions will lead to more specific questions that can provide a framework, purpose, and direction for the learning activities in a lesson, or series of lessons, and help students connect what they are learning to their experiences and life beyond school.

Effective questions in English language arts are the key to initiating and guiding students' investigations and critical thinking, problem solving, and reflection on their own learning. Questions such as the following are examples of questions that will move students' inquiry towards deeper understanding:

- How have people been discriminated against because of their colour, gender, sexual orientation, religion, or race? How have discrimination and racism been factors in Saskatchewan's history?
- How fair is it that some people receive less pay than others for equal work or do not share in the wealth of the world? How might we empower people to use the world's wealth appropriately?
- How have innocent people suffered so others can gain?
- What injustices would you like addressed in your society? How could changes best be made?
- What is the difference between fair and equal?
- What are our responsibilities to others?

Effective questioning is essential for teaching and student learning and should be an integral part of planning in English language arts. Questioning should also be used to encourage students to reflect on the inquiry process and the documentation and assessment of their own learning.

Efficacy encourages students to extend their learning beyond the classroom into the local, national, and international community. It invites students to consider how individuals or groups can shape the future in a positive way or address an issue, question, challenge, or problem that is important. Each unit at each grade level in English language arts offers opportunities to challenge students to consider what particular local, national, or global issues, questions, challenges, or problems are important and to consider what students might do to make their community or the world a better place.

Efficacy challenges students to address the important or compelling questions for deeper understanding posed in a unit. In any English language arts unit, teachers and students can plan and create a project for efficacy.

Efficacy Can Help Students

- *Become complex thinkers by encouraging them to synthesize their learning and apply it to their community, country, and/or international world.*
- *Become more aware of the interconnectedness of all things and the reciprocal relationships between themselves and their local and international community.*
- *Become more independent by using the language skills and strategies that students are learning in ELA beyond the classroom.*
- *Become more motivated by choosing individual or group projects related to each unit.*
- *Become contributors to their community and the world beyond that community.*
- *Become more collaborative and respectful as they work with others to address the questions, issues, and problems considered in the unit.*
- *Become agents of change.*
- *Become socially responsible.*

English Language Arts 6

Sample Year Plan with Questions for Grade 6 English Language Arts

Unit (and Unit Type)	Context	Unit Overview and Questions for Deeper Understanding
Growing Up (multi-genre thematic)	Personal and Philosophical	<p>Grade 6 is an important time in your lives. You are leaving childhood behind and becoming curious about the challenges ahead. You are beginning to find your place in the world and assuming more responsibility for your actions.</p> <p>Possible Questions for Deeper Understanding:</p> <ul style="list-style-type: none"> • What are some of the changes and challenges that you are facing? • How have others dealt with these changes and challenges? • When do you feel most confident about yourself and your place in the world? • What can difficult situations teach you about yourself? • What are the challenges that you will have to deal with in the future?
Messages (multi-genre thematic)	Communicative	<p>People communicate in ways other than just writing. Through personal interactions, the mass media, and the arts, they use language to recount and tell their experiences, feelings, thoughts, and opinions. To get their messages across to others, they use language for many purposes and in many media.</p> <p>Possible Questions for Deeper Understanding:</p> <ul style="list-style-type: none"> • What forms of technology are used to communicate with others and to gain information? • What is your most effective way of telling your story or getting your message across? • What role do media such as photographs, the Internet, and person-to-person contact play in your communication? • How do artists communicate their messages through the arts? • What role does advertising play in communicating and persuading?
Tales – Heroes, Deeds, and Wonders (author/genre study)	Imaginative and Literary	<p>People all over the world have told (and retold) wonderful stories that explain natural events, provide teachings about their culture, give information, explain their values, and tell about the people they admire most. A well-told tale also causes us to test our values and to reflect on what we believe is important. Such tales not only teach us, they also entertain us and cause us to imagine another time and place.</p> <p>Possible Questions for Deeper Understanding:</p> <ul style="list-style-type: none"> • What are the qualities of a good or well-told story? • What do these tales teach us about other people, times, and places? • What do these tales teach us about ourselves? • How do these tales help us see our own gifts and potential, and inspire us to fight for our own causes?

Unit (and Unit Type)	Context	Unit Overview and Questions for Deeper Understanding
<p>Taking Flight</p> <p>(multi-genre inquiry and interdisciplinary)</p> <p>[Model Unit]</p>	<p>Environmental and Technological</p>	<p>People have always wondered about flight and about space. In this interdisciplinary unit (ELA and science), you have many opportunities to listen to, read, and view different texts related to flight, space, and space exploration – some factual and some imaginary. You learn how to gather and to organize information and how to report and document factual information in different ways.</p> <p>Possible Questions for Deeper Understanding:</p> <ul style="list-style-type: none"> • How can birds, insects, bats, kites, planes, and rockets fly? Can people fly? (How do living things and flying devices achieve lift, movement, and control? Why can we not fly an airplane to the moon?) • How can we explore and learn about space? (What technologies have been developed to find out about space? How do people on Earth gather information about space? What have we learned about space?) • What have we accomplished through space exploration? (What is needed to travel and to live in space? How has the exploration of space changed people’s lives on Earth? How will space be used in the future?)
<p>Peace and Conflict</p> <p>(multi-genre thematic or inquiry)</p> <p>[Model Unit]</p>	<p>Social, Cultural, and Historical</p> <p>Communicative</p>	<p>People around the world yearn for peace. Each of us has a role and responsibility in maintaining peace on a personal, local, and global level – peace begins with us. Developing our communication and group skills can help maintain respectful relationships and resolve conflict. If we are to make the world a better place, we have to do our part. We have to be the peacemakers. “I see the world gradually being turned into a wilderness, I hear the ever approaching thunder, which will destroy us too, I can feel the suffering of millions, and yet, if I look up into the heavens, I think that it will all come right, that this cruelty, too, will end” (Anne Frank).</p> <p>Possible Questions for Deeper Understanding:</p> <ul style="list-style-type: none"> • What role does peace play in your life? What brings peace and happiness in our lives? • What skills are needed to resolve conflicts and disputes peacefully? • What is the role of the peacemaker? • What are our rights and our responsibilities in supporting peace? • What can people learn by resolving conflicts?
<p>Going the Distance</p> <p>(multi-genre thematic)</p> <p>[Optional Unit]</p>	<p>Personal and Philosophical</p> <p>Social, Cultural, and Historical</p>	<p>We often face roadblocks that we have to overcome in order to achieve success in life. Many people must overcome roadblocks in their personal lives. Some have to deal with poverty or discrimination; others have mental or physical challenges. Setting goals and striving to achieve our personal best can help us overcome life’s obstacles.</p> <p>Possible Questions for Deeper Understanding:</p> <ul style="list-style-type: none"> • What are some things that you have achieved so far in your life, and why do you consider them achievements? • What personal goals would you like to attain? How will you share your successes with your family and the larger community? • How have others met personal challenges, set goals, and tried to achieve their “personal best”? • What can you learn about yourself when you try to do your personal best?

Good language and literacy skills lay the foundation for social, academic, economic, personal, and national success.
(Jamieson & Tremblay, 2005, p.1)

Focuses on Language

Language and language study are at the centre of the Middle Level English language arts program. The study of the English language arts (listening, speaking, reading, writing, viewing, and representing) and of the elements and conventions associated with each language cueing system (i.e., pragmatic, textual, syntactical, semantic/lexical/morphological, graphophonic, and other) enables students to understand and appreciate language and to use it in a variety of situations for communication, for learning, and for personal satisfaction.

An effective English language arts program that develops students' facility with language provides students with opportunities to:

- **learn to use language** in a variety of meaningful ways, considering and determining their audience, purpose, and situation
- **learn about language** as a necessary tool for thinking and communicating effectively, considering the resources and conventions of language
- **learn through language** by applying their knowledge of language in their listening, speaking, reading, writing, viewing, and representing experiences.

Language study is an integral part of an English language arts program. Students in each grade are expected to understand the concepts related to the language cues and conventions. As students listen, speak, read, write, view, and represent, they are expected to apply the concepts as they construct and communicate meaning in their English language arts program and in their daily communication.

Language Cue or Convention	When listening, reading, and viewing, student recognizes:	When speaking, writing, and representing, student considers:
<p>Pragmatic</p> <p>Pragmatics is the study of how people choose what and how to communicate from the range of possibilities available in the language and how the receiver will be affected by these choices.</p>	<p>Who created this text? For whom? What is the purpose of this text? When was it created? Why was it created? Whose point of view is presented? What is the tone of this text? What is the creator's view of the world? What are the creator's beliefs or biases? Whose point of view is not presented?</p>	<p>About what am I speaking, writing, or representing? Who is my audience (to what person or group of people am I trying to communicate)? What is my purpose (what do I want to achieve)? What register and tone would be appropriate (what level of language should I use and what "voice" should I assume)?</p>
<p>Textual</p> <p>Ideas and information are organized in oral, written, and other formats. Textual cues and conventions include the form or structure and elements of a text.</p>	<p>What form/genre was used? How are the ideas organized (e.g., chronological)? What signal words are used? If non-fiction, what are the important ideas or events? If fiction, where and when does this take place? Who are the main characters? What is the problem? How is it resolved? What are the special features of this text?</p>	<p>What form should this take? Is this the right form to communicate my message? Is my text effectively and logically organized? Does each section/paragraph begin and end effectively? Does my text use a consistent point of view? Does my text use effective transitions and connections?</p>
<p>Syntactical</p> <p>Syntax is the predictable structure of a sentence and the ways words are combined to form phrases, clauses, and sentences. Syntax includes classes of words (e.g., verbs) and their functions (e.g., subject).</p>	<p>What is the key idea in this sentence (i.e., who or what/does or is/what/for or to whom)? What is the verb and how do the other words relate to it? How does the word order convey a particular meaning or emphasis? To what does each pronoun refer? How does the punctuation clarify the meaning of this sentence?</p>	<p>Are all sentences clear, complete, and with varied beginnings? Have I used a variety of sentence types (e.g., exclamations) and sentence structures (e.g., S-V, SVO, and S-LV-C)? Have I created sentences of varying length? Have I used co-ordination, subordination, and apposition to enhance my communication? Are there any sentence fragments or run-ons? Does each verb agree with its subject?</p>
<p>Semantic/Lexical/Morphological</p> <p>The lexicon of a language includes all the words or vocabulary of that language that are used or understood by a particular person or group. Words can also be studied for their meaningful parts or morphemes.</p>	<p>What does this word mean? Have I seen this word before? Can I use context clues to figure out what it probably means? Can I use a familiar part (e.g., prefix, suffix, base word) to figure out what it means? Can I look this word up or ask someone what it means? Is this a creative or figurative use of this word?</p>	<p>Are my word choices vivid? Have frequently confused words been used correctly? Have I used qualifiers effectively and appropriately? Have I noted the denotative and connotative meaning of words and used them effectively? Are my pronoun references correct? Have I avoided double negatives?</p>

English Language Arts 6

Language Cue or Convention	When listening, reading, and viewing, student recognizes:	When speaking, writing, and representing, student considers:
Phonemic/Graphophonic Graphophonics is the study of the relationship between the symbols and sounds of a language and includes letter or sound relationships and patterns.	How is this word pronounced?	How is this word spelled?
Other Cues and Conventions Other cues and conventions are also found in communication acts. These include such elements as graphics, layout, colour, sound, movement, font choices, and handwriting.	What additional information is conveyed through these other elements? What impact or effect do these elements have?	How could I clarify or enhance my communication using other elements such as graphics, colour, sound, movement, or props? How can I make this more interesting? More effective? Are my accompanying visuals and other media appropriate? Did I use legible handwriting or appropriate fonts?

Teaches Critical and Powerful Learning Strategies

An effective ELA program teaches students how to use critical and powerful learning strategies. In order to achieve the English language arts outcomes, students need to learn and use a range of language skills and strategies. Effective language arts teachers employ a range of instructional approaches to help students move from teacher-supported and guided lessons to independent learning that requires varied instructional methods and strategies to help students learn these language skills and strategies. Teachers model and discuss key procedural and metacognitive strategies for language learning and thinking. Students need to learn how to select and to use strategies before, during, and after listening, speaking, reading, writing, viewing, and representing.

If students are to be successful in English language arts, they need to learn and use thinking and learning skills and strategies on their own. In order to help students gain control over a repertoire of key skills and strategies, the skills and strategies need to be explicitly taught and practised using a model such as the following:

- Introduce and explain the purpose of the skill or strategy.
- Demonstrate and model its use.
- Provide guided practice for students to apply the skill or strategy with feedback.
- Allow students to apply the skill or strategy independently and in teams.
- Reflect regularly on the appropriate uses of the skills or strategies and their effectiveness.
- Assess the students' ability to transfer the repertoire of skills or strategies with less and less teacher prompting over time (Wiggins & McTighe, 2007, pp. 97-98).

Important Cognitive Strategies for Comprehending and Responding (CR) Goal

Learning Phase: Strategies Learners can use (Before) as They Prepare to Comprehend and Respond to a Visual, Multimedia, Oral, or Print Text	
Strategy	Prompts
Tap, Activate, and Build Prior Knowledge	I already know that This reminds me of This relates to
Ask Questions	I want to know I wonder if I want to answer these questions
Preview Text	<ul style="list-style-type: none"> • Title • Illustrations/Diagrams • Textual Cues and Features • Summaries • Table of Contents • Headings and Subheadings • Graphic Organizers
Anticipate Message and Author's/Presenter's Intent	I think that I will learn I think that the author/presenter will say The title of this text makes me think of This text will likely present.... The information about the speaker/writer/presenter suggests
Predict what Text will be About	Because of the title, I think Because of the picture(s), I think Because of the text and features, I think I wonder if
Set Purpose	I am listening, reading, viewing this to I want to know if I think that I will learn I want to answer these questions

English Language Arts 6

Learning Phase: Strategies Learners can use (During) as They Comprehend and Respond to a Visual, Multimedia, Oral, or Print Text	
Connect and Construct Meaning	This reminds me of I experienced this once when I can relate to this because
Note Key Ideas and What Supports Them	The important ideas in what I hear, read, or view are Here's why (supporting ideas) I think the author/presenter is really trying to make us think
Construct Mental Images	I can picture In my mind I see, hear, smell, taste, feel If this were a movie
Make, Confirm, and Adjust Predictions	I think I suppose If ..., then
Make, Confirm, Adjust Inferences, and Draw Conclusions	Based on the clues in this text, I think the author/character felt/thought I see why My thinking changed when I heard, saw, read
Ask Questions and Self-monitor Comprehension	Does this make sense? I need to listen again, re-read, or re-view this part because I know that I am on the right track because
Use Cueing Systems to Construct Meaning:	
Pragmatic Cues (audience, purpose, situation)	The purpose of this text is to This text represents ... point of view The author's/presenter's view of the world is
Textual Cues (genre and form)	The author/presenter chose to use ... genre/form The author/presenter organized the ideas in a list, sequence, compare/contrast, cause/effect, problem/solution, concept/definition, goal/action/outcome format The author/presenter probably chose this genre/form because
Syntactical (sentence) Cues	The key idea of this sentence is The author/presenter used this word order to convey this particular meaning or emphasis of This pronoun refers to
Semantic/Lexical (word) Cues	An important or key word in this passage is Because of its context clues, ... probably means Because of its prefix, suffix, root, ... probably means
Graphophonic (sound-symbol) Cues	... is pronounced is spelled
Other Cues	The author/presenter used these features (e.g., graphs, charts) to help us understand this text
Adjust Rate and/or Strategy	I need to skim this part to learn I need to scan this part to find I need to read this part carefully to learn

The “during” phase of listening, reading, and viewing cannot be treated as simply “assign and evaluate”. Students should not be told simply to listen, read, or view and asked questions in the after phases to determine if they have comprehended a text. Most students need the strategies in the “during” phase to be explicitly modelled and taught.

Learning Phase: Strategies Learners can use (After) After They Comprehend and Respond to a Visual, Multimedia, Oral, or Print Text	
Recall, Paraphrase, Summarize, and Synthesize	<p>So the point is</p> <p>This text was about</p> <p>The main idea is</p> <p>I learned</p> <p>A conclusion that I am drawing is....</p> <p>The overall message was</p> <p>I need to listen again, re-read, re-view the part where</p>
Reflect and Interpret (Identify new knowledge or insight)	<p>A question that I have is</p> <p>This is important and relevant because</p> <p>I wonder if</p> <p>What I learned was</p> <p>I want to know more about</p>
Evaluate	<p>I like/do not like ... because</p> <p>This could be more effective if</p> <p>I would add or delete</p> <p>The most important message is</p> <p>The teaching in this is</p> <p>This is accurate/realistic/artistic because</p> <p>This was successful because</p>
Analyze Craft and Technique	<p>A “golden” line for me is</p> <p>This word/phrase/sentence/part stands out for me because</p> <p>I like how the presenter/author uses ... to show</p> <p>The thing that I could relate to the most was</p>
Respond Personally (giving support from text)	<p>My first reaction was</p> <p>I thought</p> <p>I felt</p> <p>I enjoyed</p> <p>This reminds me of</p> <p>A similar story to this is</p>
Listen, Read, View Again and Speak, Write, and Represent to Deepen Understanding and Pleasure	<p>I could deepen my understanding and pleasure by listening again, re-reading, reviewing ...</p> <p>I could share my thoughts and insights with others by:</p> <ul style="list-style-type: none"> • Speaking (e.g., discussing, giving a dramatic reading, role playing) • Writing (e.g., a script, a narrative, a poem) • Representing (e.g., creating a tableau, a graphic organizer, a storyboard).

Additional Strategies for Comprehending and Responding

Viewing:

- Think Alouds (Davey, 1983)
- View, Pause, Predict, and Think Aloud
- Collaborative Viewing Guide (Wood, 1994)
- Directed Viewing-Thinking Activity (DVTA)
- Picture Walk (Richards & Anderson, 2003)
- Viewing Guides

Listening:

- TQLR (Tune In, Questions, Listen, and Review) (SRA, 2000)
- ACTION (Attention, Concentrate, Think, Interpret, Organize, and Note) (Sebranek & Kemper, 1995)
- Listen-Think-Pair-Share (McTighe & Lyman, 1992)
- Listen-Draw-Pair-Share (McConnell, 1992)
- DLTA (Directed Listening-Thinking Activity) (Stauffer, 1975)
- LAPS (Listen, Ask, Picture, and Summarize) Strategy (Matchullis & Mueller, 1996)
- Listening Guides

Reading:

- Anticipation/Reaction Guide (Herber, 1978; Readance, Bean, & Baldwin, 1989)
- KWL, K-W-L Plus (Carr & Ogle, 1987)
- Preview/Connect/Predict (Robb, 2006)
- List/Group/Categorize (Robb, 2006)
- SMART (Self-monitoring Approach to Reading and Thinking) (Vaughan & Estes, 1986)
- Read SMART (Buehl, 2001)
- B-D-A (Before, During, and After) Strategy (Laverick, 2002)
- Directed Reading-Thinking Activity (DRTA) (Stauffer, 1975)
- Reciprocal Reading (Palincsar & Brown, 1986)
- ReQuest (Manzo, 1969; Vacca & Vacca, 1999)
- Easy as 1, 2, 3 (Moore in Olson, 2003)
- Qta (Question the Author) (Beck, McKeown, Hamilton, & Kucan, 1997)
- QARs (Question Answer Relationship) (Raphael, 1986)
- GIST (Generating Interactions between Schemata and Texts) (Cunningham, 1982)
- Mapping It Out (Hoyt, 2000)
- Double Journal Entries
- Justifying My Opinions (Hoyt, 2000)
- Open-mind Portraits (Tompkins, 2004)
- Coding the Text (Harvey & Goudvis, 2000)
- Think Alouds (Davey, 1983)
- REAP (Read, Encode, Annotate, and Ponder) (Eanet & Manzo, 1976)
- Reading Guides
- SQ3R (Survey, Question, Read, Recite, and Review) (Robinson, 1961)
- SEARCH (Scan, Examine, Act, Review, Connect, and Hunt)
- Discussion Circles
- Grand Conversations (Eeds & Wells, 1989)
- Literature Circles (Daniels, 1994)
- Reader's Workshop

Important Cognitive Strategies for Composing and Creating (CC) Goal

Learning Phase: Strategies Learners can use (Before) as They Prepare to Compose and Create a Visual, Multimedia, Oral, or Print Text	
Strategy	Prompts
Consider Prompts (e.g., RAFTS variables) or Find a Topic and Activate Prior Knowledge	<ul style="list-style-type: none"> About what am I speaking, writing, or representing? What do I know about this topic? What message do I want to communicate? What questions need to be answered? What is my role or point of view? What do proficient speakers, writers, or presenters do to create quality texts?
Consider Purpose and Audience	<ul style="list-style-type: none"> For whom am I speaking, writing, or representing? What do I know about my audience (e.g., age, interests, needs, gender, background)? Why am I speaking, writing, or representing? What is my purpose (e.g., convince, persuade, defend)? What am I trying to do in this communication? Should I use a formal or informal stance?
Consider and Generate Specific Ideas and Information that Might be Included	<ul style="list-style-type: none"> What do I know and need to know about the topic? What types of information (e.g., data, anecdotes, visuals) will appeal to my selective audience and serve my purpose? What are the specific ideas that I need to include? What points need to be made? Where will I find missing or additional information?
Consider and Choose/Adapt a Possible Form	<ul style="list-style-type: none"> What form will appeal to my selected audience and best serve my purpose? What form will engage my audience? What shape will that form take? How could the ideas and information be organized?
Collect and Focus Ideas and Information	<ul style="list-style-type: none"> What do I need to find out? Where can I find reference materials? With whom do I talk? Is my topic sufficiently focused? What is the key message? Where is the best information found for this message?
Plan and Organize Ideas for Drafting (mapping and authoring)	<ul style="list-style-type: none"> What plan do I have? How will I begin? How will I make this interesting? How will I end? How will I arrange my ideas to make sense?
Consider Qualities of Effective Communication and the Language to Use	<ul style="list-style-type: none"> What are the key ideas for this message? What is the best way to organize this message? What is the best and most appropriate language to use? What register and tone is appropriate? What is the best way to present this message?

English Language Arts 6

Learning Phase: Strategies Learners can use (During) as They Compose and Create a Visual, Multimedia, Oral, or Print Text	
Create Draft(s) and Experiment with Possible Product(s)	<p>What ways can I start?</p> <p>What do I need to add, expand, modify, change, condense, delete, or rearrange in my next draft?</p> <p>Is this the best approach for the chosen topic?</p>
Use Language and its Conventions to Construct Message:	
Pragmatic Cues (audience, purpose, situation)	<p>For whom am I communicating this and for what purpose?</p> <p>What register and tone is appropriate?</p>
Textual Cues (genre and form)	<p>What form should this take?</p> <p>How should I arrange my ideas and sequence and connect them?</p> <p>Are all new paragraphs clearly identified?</p>
Syntactical (sentence) Cues	<p>Are my sentences clear? Complete? Interesting? Varied? Correct?</p>
Semantic/Lexical (word) Cues	<p>Did I choose the right words? Did I use the words correctly?</p>
Graphophonic (sound-symbol) Cues	<p>Did I spell each word correctly?</p> <p>Did I use punctuation to clarify meaning?</p>
Other Cues	<p>How can I make this more interesting? More effective? More vivid?</p> <p>Are my accompanying visuals or multimedia choices appropriate?</p> <p>Did I use legible handwriting or appropriate fonts, formatting, or props?</p>
Confer with Others	<p>How do my peers and others respond to my drafts?</p> <p>What suggestions for improvement do others have?</p> <p>What do I need to add or change to create a quality text?</p> <p>Do others have suggested ideas and sources of information that I can include?</p>
Reflect, Clarify, Self-monitor, Self-correct, and Use a Variety of “Fix-up” Strategies	<p>Does this mean what I want it to mean?</p> <p>How clear is the meaning?</p> <p>What are my strengths and what areas need improvement in this piece?</p> <p>What should I now add, change, delete, or rearrange?</p>
Experiment with Communication Features and Techniques	<p>How well do the communication variables (e.g., content, organization, purpose, audience, context) work together?</p> <p>How can I use different features to communicate my ideas more clearly and more effectively?</p>

Learning Phase: Strategies Learners can use (After) After They Compose and Create a Visual, Multimedia, Oral, or Print Text	
Revise for Content and Meaning (adding, deleting, substituting, and rethinking)	<p>Have I included everything I want to say? Do I need to add any other information? Are there enough details? Do I need to take anything out?</p> <p>Is the writing interesting?</p> <p>Does the writing achieve the purpose? Are there unrelated ideas that distract the listener, reader, or viewer?</p>
Revise for Organization (reordering)	<p>Do I have an introduction?</p> <p>Is my main idea clearly developed and supported?</p> <p>Is my order clear?</p> <p>Are the ideas and details arranged in an effective order?</p> <p>Are the connections between ideas and sentences clear?</p> <p>Do I have a good ending?</p>
Revise for Sentence Structure and Flow	<p>Are my sentences clear and complete?</p> <p>Do my sentences read smoothly?</p> <p>Is the sentence structure varied?</p> <p>Do the subjects and verbs agree?</p>
Revise for Word Choice, Spelling, and Usage	<p>Does my language fit the audience and purpose?</p> <p>Have I used the best words?</p> <p>Have I used any words too many times?</p> <p>Have I left out any words?</p> <p>Are my words spelled correctly?</p>
Proofread for Mechanics and Appearance (Punctuation and Capitalization)	<p>Did I proofread for capitalization and punctuation?</p> <p>Is it audible?</p> <p>Is my polished draft legible?</p> <p>Is the layout clear?</p>
Confer with Peers, Teacher, or Others	<p>What is the part that I like best?</p> <p>Does it say what I wanted it to say?</p> <p>Does it have a clear form?</p> <p>Does it make sense? Is it interesting?</p> <p>Does it give the intended reaction?</p> <p>Is it clear and easy to understand? Is it appropriate for my purpose and audience?</p> <p>How can it be improved?</p> <p>What could I do next?</p>
Polish, Practise, and Decide how the Work will be Shared and/or Published	<p>What does quality speaking, writing, and other forms of representing look and sound like?</p> <p>Is my presentation ready?</p> <p>In what context (situation) will my listeners, readers, or viewers engage with my text?</p> <p>How will this context affect its presentation?</p>
Share Final Product, Reflect and Consider Feedback, and Celebrate Learning	<p>What is the listeners', readers', or viewers' response?</p> <p>What worked well?</p> <p>What would I try next time?</p> <p>What lessons have I learned from this experience?</p> <p>How do I find opportunities to celebrate my achievements?</p>

English Language Arts 6

Additional Strategies for Composing and Creating

Representing:

- Discuss/Brainstorm/Web
- Asking the 5Ws + H
- Representing Task Sheet
- Talking Drawings (Wood, 1994)
- Sketch to Stretch (Harste, Short, & Burke, 1988)
- Read/View/Listen, Talk, Act, Draw, Write (Cox, 1999)

Speaking:

- Talking Circle
- Think, Pair, Share/Square (McTighe & Lyman, 1992)
- Instructional Conversations (Goldenberg, 1993)
- TAPS (Total Group, Alone, Partner, and Small Group) (Gregory & Chapman, 2002)
- Grouptalk (Whipple, 1975; Moffett & Wagner, 1992)

Writing:

- Discuss/Brainstorm/Web
- Think-Pair-Share-Write (Robb, 2006)
- Asking the 5Ws and H (who, what, where, when, why, and how)
- Writing Frames
- RAFTS (Adler & Vendeventer, 1989)
- Fast Writes (Robb, 2006)
- Authors' Circle (Graves & Hansen, 1983)
- Passes (Perrin, 1992)
- Guided, Layered Revision (Forney, 1999)
- Writing Workshop (Calkins, 1994)

Refer to the Ministry of Education website for additional information about the strategies that learners can use for comprehending and responding and for composing and creating.

Includes a Range of Texts

In order for students to achieve the outcomes stated in this curriculum, students need to have access to a wide range of high quality learning resources in oral, visual, multimedia, print, and electronic formats. The bibliography that supports this curriculum identifies core learning resources to support the English language arts program and student achievement of the learning outcomes designated for this grade level. Additional resources that have been evaluated for curriculum fit are available on the Ministry of Education website. An effective English language arts program:

- provides learning resources that help students achieve the curriculum outcomes
- balances a variety of formats including print, non-print, human, electronic, and virtual resources
- offers resources that are current, relevant, credible, and representative of many viewpoints including resources that reflect the perspectives, cultures, and ways of knowing of Saskatchewan's First Nations and Métis peoples
- presents the cultural, literary, and artistic heritages of societies, past and present
- responds to students' interests and supports independent reading and inquiry
- fosters opportunities for inquiry learning.

Refer to the ministry website for a listing of various grade-appropriate texts that Grade 6 students might explore.

Outcomes and Indicators

Focus: Communicating Ideas and Experiences with Clarity

By the end of grade 6, students will:

Comprehend and Respond (CR). Students will extend their abilities to view, listen to, read, comprehend, and respond to a range of contemporary and traditional grade-level texts from First Nations, Métis, and other cultures in a variety of forms (oral, print, and other texts) for a variety of purposes including for learning, interest, and enjoyment.

Outcomes

CR6.1 View, listen to, read, comprehend, and respond to a variety of texts that address identity (e.g., *Growing Up*), social responsibility (e.g., *Going the Distance*), and efficacy (e.g., *Making Our Community More Peaceful*).

Indicators

- a. View, listen to, read, and respond to a variety of visual, multimedia (including digital), oral, and print texts that address the grade-level themes and issues related to identity, social responsibility, and efficacy including those that reflect diverse personal identities, worldviews, and backgrounds (e.g., appearance, culture, socio-economic status, ability, age, gender, sexual orientation, language, career pathway).

- b. Demonstrate comprehension and response to visual, oral, print, and multimedia (including digital) texts by:

understanding the ideas in texts by clearly, completely, and accurately summarizing and explaining the explicit and implicit messages and main ideas (including setting, main characters, conflicts, events) in texts; citing details that support the main ideas; making logical inferences; interpreting obvious themes or author's message logically.

understanding how texts are organized and presented for effect (and use the text structures and features) to construct meaning and evaluate craft and technique (e.g., elements) of different types of text including visual (e.g., colour), multimedia (e.g., special effects), oral (e.g., tone), and print fiction (e.g., short story, drama, poetry, novel) and non-fiction (e.g., autobiography, biography, informational, newspaper, reference) and organizational structure within different texts (e.g., problem/solution, compare/contrast, cause/effect, order of importance, chronological).

responding to and interpreting texts by responding with clear, complete, and accurate information that includes specific references to the texts; offering reactions and opinions about texts; making, explaining, and justifying reactions and personal connections to texts; making explicit and deliberate connections with previous knowledge and experiences; giving opinions and making judgements

English Language Arts 6

CR6.1 (continued)

- supported by reasons, explanations, and evidence; drawing conclusions about ideas on the basis of evidence; making logical interpretations of the author's message; making and supporting inferences about characters' feelings, motivations, and point of view.
- c. Recognize key characteristics and elements and techniques of a variety of visual, multimedia (including digital), oral, and print texts.
 - d. Access, view, listen to, read, and respond to a variety of digital texts including electronic texts that have multiple links and sound, video, animation, and/or virtual reality.
 - e. Discuss own and others' understanding of various community and cultural traditions in various times and places as portrayed in a variety of visual, multimedia, oral, and print texts.
 - f. Consider potential impact of visual, multimedia, oral, and written texts.
 - g. Compare various oral, visual, multimedia, and written text forms and genres.

Outcomes

CR6.2 Select and use appropriate strategies to construct meaning before (e.g., considering what they know and need to know about topic), during (e.g., making connections to prior knowledge and experiences), and after (e.g., drawing conclusions) viewing, listening, and reading.

Indicators

Understand that listening, reading, and viewing are processes that require the use of several strategies before, during, and after listening, reading, and viewing including:

- a. **Before:** Select and use a range of strategies before listening, reading, and viewing including:
 - tap, activate, and build prior knowledge (e.g., consider what is known and needs to be known about topic)
 - ask questions (e.g., generate questions to address the "needs to be known")
 - preview text (e.g., preview beginning events)
 - anticipate message and author's/presenter's intent (e.g., consider title and what is known about author)
 - predict what text will be about (e.g., consider the accompanying visuals and headings)
 - set purpose (e.g., set focus on what "need to and might learn" about topic).
- b. **During:** Select and use a range of strategies to construct, monitor, and confirm meaning including:
 - connect and construct meaning (e.g., make connections to own lives and contemporary issues and problems; make connections to self, text, and world)
 - note key ideas and what supports them (e.g., identify the

CR6.2 (continued)

- problem, the key events, and the problem resolution; find important ideas and identify supporting details)
 - construct mental images (e.g., think critically about the writer’s/presenter’s use of language to evoke sensory images, feelings, or mood)
 - make, confirm, and adjust predictions (e.g., consistently make predictions using evidence from the text to support thinking; make predictions using text features)
 - make, confirm, and adjust inferences and draw conclusions (e.g., use stated or implied ideas to support interpretation of text; make judgements and draw conclusions about ideas in texts)
 - ask questions (e.g., ask questions to check understanding and evaluate text’s message)
 - use cueing systems to construct meaning and self-monitor comprehension (e.g., self-monitor understanding and ask questions when meaning is lost; clarify the meaning of words and concepts, and check understanding)
 - adjust rate and/or strategy (e.g., match silent and oral reading rate to specific purpose and difficulty of text).
- c. **After:** Select and use a range of strategies to confirm and extend meaning including:
- recall, paraphrase, summarize, and synthesize (e.g., remember information from factual texts and use strategies for remembering it; summarize main ideas to arrive at new understanding or conclusion; synthesize information from two different points of view)
 - reflect and interpret (e.g., think critically about conclusions)
 - evaluate (respond critically) (e.g., understand subtexts where the author is saying one thing but meaning another; draw conclusions about the validity of ideas and information; identify fact and opinion)
 - evaluate craft and techniques (e.g., recognize, understand, and discuss symbolism; understand how layout contributes to the meaning and effectiveness of texts)
 - respond personally (giving support from text) (e.g., support thinking beyond the text with specific evidence based on personal experience)
 - listen, read, or view again and speak, write, and represent to deepen understanding and pleasure (e.g., express opinion about ideas, themes, issues, and experiences presented in texts using examples from texts to support).

English Language Arts 6

Outcomes

CR6.3 Use pragmatic (e.g., function and purpose of texts), textual (e.g., form/genre, sequence of ideas), syntactic (e.g., word order and emphasis on particular words), semantic/lexical/morphological (e.g., capture particular aspect of intended meaning), graphophonic (e.g., sound-symbol patterns and relationships), and other cues (e.g., the speaker's non-verbal cues) to construct and confirm meaning.

Note: Italicized text refers to those indicators that are emphasized at this grade level.

Indicators

Recognize and comprehend the particular purpose (pragmatic cues), textual structures and patterns (textual cues), sentence structures (syntactical cues), word patterns (lexical/semantic/morphological cues), sound-symbol relationships (graphophonic cues), and other cues, in visual, oral, print, and multimedia texts.

Pragmatic: Explore various ways in which language is used across culture, age groups, and genders to honour and celebrate people and events; recognize and explain *function and purpose of texts* including informing, persuading, narrating, and describing; recognize use and register of language (i.e., formal, informal, slang).

- d. **Textual:** Recognize and explain how structures and features of texts can work to shape understanding including *form/genre, sequence of ideas*, artistic devices (e.g., personification, figurative language, exaggeration, symbolism), elements (e.g., point of view, conflict, theme, supporting arguments), and text features (e.g., credits, headings, diagrams, glossaries, columns, sidebars, pull-quotes).
- e. **Syntactical:** Recognize and comprehend clear sentence structures that contain a verb and its subject; closely related ideas in compound structures that use conjunctions or joining words; complete sentences with appropriate modification; varied sentence beginnings; effective punctuation and capitalization including periods, commas, quotation marks, colons, dashes, and hyphens; and the *word order and emphasis on particular words* within a sentence.
- f. **Semantic/Lexical/Morphological:** Recognize and comprehend words that are appropriate for audience, purpose, and context and *capture particular aspect of intended meaning*; recognize common prefixes (e.g., anti, auto, pre, trans), suffixes (e.g., tion, ment), and root words (e.g., run, view); use reference tools to determine meaning of words; recognize words used figuratively (e.g., personification, similes, metaphors) and for imagery.
- g. **Graphophonic:** Recognize and comprehend word families and *sound-symbol patterns and relationships*.
- h. **Other Cues:** Recognize and comprehend *non-verbal cues* and body language, physical movement, gestures, facial expression, sound, and visual and multimedia aids to enhance presentations, and characteristic conventions of a variety of visual, multimedia, and print texts (e.g., labels, sidebars, diagrams).

Outcomes

CR6.4 View, respond, and demonstrate comprehension of visual and multimedia grade-appropriate texts including traditional and contemporary texts from First Nations, Métis, and other cultures containing special features (e.g., the visual components of magazines, newspapers, websites, comic books, broadcast media, video, and advertising).

Indicators

- a. Display active viewing behaviours including preparing to view; considering what is known and needs to be known about a topic; showing interest in what is said; anticipating and predicting the speaker’s message and meaning; identifying ideas expressed as true or false, real or imaginary; seeking additional information from other sources as needed.
- b. View for a variety of purposes including to understand and gather information, to form an opinion, and to enjoy and appreciate.
- c. View and comprehend a variety of visual and multimedia (including digital) texts with specialized features (e.g., the visual components of magazines, newspapers, websites, videos).
- d. Identify basic visual techniques such as choice of colour and point of view and offer reasonable interpretations of visual and multimedia text’s purpose.
- e. Draw conclusions based on evidence in visual text (e.g., line graph).
- f. Evaluate what was seen including message, elements (including shape, angles, and physical movement), techniques, and overall effect.

Outcomes

CR6.5 Listen purposefully to understand, respond, and analyze oral information and ideas from a range of texts including narratives, instructions, oral explanations and reports, and opinions.

Indicators

- a. Display active listening behaviours including preparing to listen; making notes to assist recall of ideas presented; identifying important details; noting techniques employed; seeking additional information from other sources as needed.
- b. Restate and follow multi-step instructions and show that they have been understood by completing a task.
- c. Generate questions to clarify incomplete or unclear material heard.
- d. Identify speaker’s viewpoint and purpose.
- e. Restate or summarize major points and supporting details after a presentation or podcast and show understanding by the actions taken.
- f. Draw conclusions about presenter’s stance and values.

English Language Arts 6

Outcomes

CR6.6 Read and demonstrate comprehension and interpretation of grade-appropriate texts including traditional and contemporary prose fiction, poetry, and plays from First Nations, Métis, and other cultures.

CR6.7 Read independently and demonstrate comprehension of a variety of information texts with some specialized language including grade level instructional materials, non-fiction books, reports and articles from magazines and journals, reference materials, and written instructions.

CR6.8 Read grade 6 appropriate texts to increase fluency (120-160 wcpm orally; 160-210 silently) and expression.

Indicators

- a. Display active reading behaviours including preparing to read; considering appropriate rate (e.g., skim, scan, or read carefully) according to purpose; asking questions (e.g., Who? What? Where? When? How? How do I feel about what I am reading? If I were this character, what would I do? What does the author really mean by this?); rereading to clarify understanding when necessary.
- b. Read for a variety of purposes including to gather information, to follow directions, to form an opinion, to understand information, and to enjoy and appreciate ideas and craft.
- c. Read and comprehend a range of contemporary and traditional texts appropriate to interests and learning needs.
- d. Read and demonstrate comprehension and interpretation of a range of grade-level-appropriate texts in a variety of genres and from different cultural traditions.
- e. Recognize the author's use of language (formal, informal, slang) and techniques (e.g., foreshadowing).
- f. Determine whether fact or opinion is being presented.
- g. Identify point of view in narrative (i.e., first person, second person, third person).
- h. Analyze and evaluate what is read.
- i. Draw conclusions about author's message, values, and craft.
- j. Read orally and silently Grade 6 appropriate texts to increase fluency and expression.

Compose and Create (CC). Students will extend their abilities to speak, write, and use other forms of representation to explore and present thoughts, feelings, and experiences in a variety of forms for a variety of purposes and audiences.

Outcomes

CC6.1 Create various visual, multimedia, oral, and written texts that explore identity (e.g., *Your Choices*), social responsibility (e.g., *Looking for Answers*), and efficacy (e.g., *Systems for Living*).

Indicators

- a. Represent ideas, opinions, and facts about identity, social responsibility, and efficacy for specific purposes (e.g., to explain, to narrate, to describe, to persuade) and audiences.
- b. Create speeches, written compositions, and other representations that feature the following qualities:

Message Content or Ideas (Meaning): Focuses on straightforward ideas and information; provides relevant details, examples, and explanations; generally is accurate and complete; uses own words.

CC6.1 (continued)

Organization and Coherence (Form): Introduces the topic and purpose; may provide some context; sticks to the topic; provides easy-to-follow sequence with related ideas grouped together (sequence is logical); uses a variety of connecting words; creates a logical ending; includes appropriate, required text features (e.g., titles, headings, diagrams, illustrations); uses paragraphs that have main ideas and supporting details.

Language Conventions (Style and Language Choices): Uses clear purpose and language; contains some description and variety in diction; contains a variety of sentence lengths and some varied sentence beginnings; demonstrates the use of several different conjunctions; formulates simple, compound, and complex sentences; applies the conventions of oral and written language, including very few spelling errors, correct punctuation (including use of colon, dash, and hyphen); uses syntactically complete and correct sentences (avoiding run-ons and fragments); uses legible cursive handwriting and other clear representations which are visually accurate and legibly and neatly presented.

- c. Create a variety of visual, oral, written, and multimedia (including digital) texts including personal narratives, responses or reactions to reports, articles, instructions, explanations, letters, illustrations, diagrams, leaflets, stories, poems, storyboards, cartoons, skits, or short video scripts.
- d. Create a variety of meaningful personal and impromptu communications (e.g., story, poem, visual representation) characterized by some insight, development, and originality.
- e. Use speaking, writing, and other forms of representing to respond to experiences and to texts.

English Language Arts 6

Outcomes

CC6.2 Select and use the appropriate strategies to communicate meaning before (e.g., identifying purpose and audience), during (e.g., acknowledging sources), and after (e.g., revising to enhance clarity) speaking, writing, and other representing activities.

Indicators

Progress through stages/phases of the creating process (i.e., before [pre-], during [drafting], and after [revising]) as needed using several strategies including:

a. Before:

- consider prompt or find a topic and activate prior knowledge (e.g., look for ideas and topics in personal experiences; choose a topic that is significant)
- consider purpose and audience (e.g., understand audience as all viewers, listeners, readers rather than just the teacher; identify and define stance/role/voice)
- consider and generate specific ideas and information that might be included (e.g., generate and expand ideas through talk with peers and teacher)
- consider and choose/adapt a possible form (e.g., review and adapt models; organize ideas to fit purpose of the composition; inform, describe, explain, persuade)
- collect and focus ideas and information (e.g., select details that will support the topic)
- plan and organize ideas for drafting (mapping and authoring) (e.g., establish a logical sequence for ideas)
- consider qualities of effective communication and the language to use (e.g., use dialogue to draw readers in; consider technology to emphasize ideas).

b. During:

- create draft(s) and experiment with possible product(s) (e.g., create a “discovery” draft and then revise it; develop a clear main idea around which a composition will be developed)
- confer with others (e.g., change writing in response to peer or teacher feedback)
- use language and its conventions to construct message (e.g., experiment with language that is particular to a setting; use formal and informal voice)
- reflect, clarify, self-monitor, self-correct, and use a variety of “fix-up” strategies (e.g., use a sticky note to add content)
- acknowledge sources (e.g., record sources of ideas for citation)
- experiment with communication features and techniques (e.g., try using a new word).

c. After:

- revise for content and meaning (adding, deleting, substituting, and rethinking) (e.g., check for conciseness)
- revise for organization (e.g., reorganize paragraphs or

CC6.2 (continued)

- sections for better sequence or logical progression)
- revise for sentence structure and flow (e.g., write a variety of complex sentences using conventions of word order and punctuation; eliminate run-on sentences)
- revise for word choice, spelling, and usage (e.g., use transitional words for flow; use correct terminology to establish authority)
- proofread for mechanics and appearance (e.g., write fluently and legibly in cursive handwriting with appropriate spacing)
- confer with peers, teacher, or others (e.g., provide editing and proofreading help to peers)
- polish, practise, and decide how work will be shared and published (e.g., enhance for clarity; create illustrations and graphics for presentation; use charts for effective presentation)
- share final product, reflect, consider feedback, and celebrate learning (e.g., present and seek feedback).

English Language Arts 6

Outcomes

CC6.3 Use pragmatic (e.g., function and purpose), textual (e.g., paragraphs), syntactic (e.g., complete sentences with appropriate subordination and modification), semantic/lexical/morphological (e.g., figurative words), graphophonic (e.g., spelling strategies), and other cues (e.g., appropriate volume and intonation) to construct and to communicate meaning.

Note: Italicized text refers to those indicators that are emphasized at this grade level.

Indicators

Use language conventions to deliberately convey meaning when engaged in speaking, writing, and other representing activities.

- a. **Pragmatic:** Identify and explain *function and purpose* of texts including informing, persuading, narrating, and describing; use language that demonstrates respect for others; use standard Canadian English that follows accepted rules of usage.
- b. **Textual:** Understand and use a range of standard forms for texts including *paragraphs* and multi-paragraph compositions; use a logical sequence for ideas.
- c. **Syntactical:** Use clear sentence structures that contain a verb and its subject (Average spoken sentence length - 9.5 words; written sentence length - 9.0 words); combine closely related ideas into compound structures using conjunctions or joining words; *use complete sentences with appropriate subordination and modification*; vary sentence beginnings; ensure agreement of subject, verbs, and pronouns; use correct verb forms (e.g., "I have seen..."); use effective punctuation and capitalization including periods, commas, quotation marks, colons, dash, and hyphens.
- d. **Semantic/Lexical/Morphological:** Use words that are appropriate for audience, purpose, and context; avoid overused and misused words (e.g., "really good"); use reference tools to determine meaning of words; *use words figuratively* (e.g., personification, similes, and metaphors) and for imagery; correctly spell common words; use Canadian spelling; use a variety of strategies and resources to learn the correct spelling of words.
- e. **Graphophonic:** Clearly enunciate and carefully, and correctly pronounce words; *utilize spelling rules and strategies* to correctly spell appropriate words.
- f. **Other Cues:** *Use appropriate volume and intonation*; use appropriate non-verbal cues and body language; use appropriate gestures, facial expressions, sounds, visuals, and multimedia aids to enhance presentation; use printing (e.g., for labels on a map) and cursive writing (e.g., for writing a report) appropriate to purpose; write legibly with appropriate speed and control; choose appropriate font size and style when using technology.

Outcomes

CC6.4 Create and present a variety of representations that communicate ideas and information to inform or persuade and to entertain an audience, including illustrations, diagrams, posters, displays, and cartoons.

Indicators

- a. Use different ways of representing to explore ideas and express understanding (e.g., in a poster, tableau, physical movement, graphic organizer, chart, graph, table).
- b. Consider appropriate technology to communicate or enhance representations.
- c. Convey understanding of topics using mime, graphics, physical movement, and pictures or photographs.
- d. Convey key images or information inherent in those images through visual representations.
- e. Incorporate aids (e.g., photographs, illustrations, models, artifacts, diagrams, sound) in presentations.
- f. Display visual aids in ways that make them easy for the audience to see and understand.
- g. Present ideas clearly and at a rate that enables others to follow.
- h. Consider ways to enhance clarity and impact of representations.
- i. Experiment with representing in a variety of forms (e.g., photographs, models, collages).

Outcomes

CC6.5 Use oral language to interact appropriately with others in pairs, and small and large group situations (e.g., asking questions to explore others' ideas and viewpoints, discussing and comparing ideas and opinions, completing tasks and contributing to group success).

CC6.6 Use oral language appropriately to express a range of information and ideas in formal and informal situations including presenting an oral report based on research, a demonstration, and a short dramatization.

Indicators

- a. Engage in partner, small-group, and whole-class discussion to accomplish a task (e.g., develop a class plan of action).
- b. Show an understanding of when to speak and when to listen when participating in conversations and in small and whole group discussions.
- c. Contribute to structured discussion and dialogues to explore perspectives, ideas, and issues and to complete tasks.
- d. Maintain conversations with classmates and adults and consistently follow guidelines for interacting (e.g., listening to others without interrupting, speaking respectfully to peers, using appropriate language and tone to disagree).
- e. Exchange ideas and concepts with teacher, peers, and adults.
- f. Ask questions to sustain and extend interactions.
- g. Prepare and give oral presentations (e.g., on a topic under study or of personal interest).
- h. Include appropriate beginning, middle, and ending in

English Language Arts 6

CC6.5 and CC6.6 (continued)

- presentations (e.g., opening with a formal introduction, concluding with a summation).
- i. Adjust voice, tone, and language choices to a range of situations.
 - j. Speak clearly and expressively in classroom presentations.
 - k. Use body language and gestures, modification of voice, or facial expressions to respond to the audience.
 - l. Present ideas effectively demonstrating an awareness of audience (e.g., attempt to make the material interesting and appropriate to audience and purpose).
 - m. Perform role plays and dramatizations.
 - n. Read aloud short poetry or process passages with expression and fluency.
 - o. Share ideas/knowledge in a clear manner, encourage the contributions of others, disagree courteously/sensitively, answer others' questions clearly and politely, and give reasons for opinions.

Outcomes

CC6.7 Write to describe a place; to narrate an incident from own experience in a multi-paragraph composition and in a friendly letter; to explain and inform in multi-step directions and a short report explaining a problem and providing a solution; and, to persuade to support a viewpoint or stand.

CC6.8 Experiment with a variety of text forms (e.g., a peer interview, presentation at an assembly, poem, letter to parents, short review, poster, tableau, graphic organizer) and techniques (e.g., surprise ending).

Indicators

- a. Write multi-paragraph (minimum of 3-5 paragraphs) narrative, expository, persuasive, and descriptive texts of at least 400 to 600 words.
- b. Write clear, focused essays that contain a formal introduction, supporting evidence, and a conclusion.
- c. Create **narratives** about an incident as follows:
 - establish a plot and setting and present a point of view that is appropriate to the stories
 - include sensory details
 - develop plot and character
 - use a range of narrative devices (e.g., dialogue, suspense, tension).
- d. Create **expository, informational, and procedural** texts, multi-step directions, and a problem/solution presentation as follows:
 - pose relevant questions and state purpose
 - explain the situation and develop topic with facts, details, examples, and explanations from multiple sources
 - follow an organizational pattern
 - offer evidence to support conclusions.

CC6.7 and CC6.8 (continued)

- e. Create **descriptive** texts about a place as follows:
 - present a clear picture of the place
 - include sensory details (five senses) in a logical order (e.g., left to right, far to near).
- f. Create **persuasive** texts on a stand or viewpoint as follows:
 - state stand or viewpoint
 - give reasons, facts, and expert opinion to support stand
 - demonstrate sincerity.
- g. Experiment with different points of view (i.e., first person as well as third person).
- h. Share writing-in-progress in various ways (e.g., author’s circle, peer response).

Outcomes

CC6.9 Prepare a teacher-guided inquiry report related to a stand on a topic, theme, or issue studied in English language arts.

Indicators

- a. Use inquiry to extend understanding of a particular topic related to the themes and issues being studied as follows:
 - generate key research questions to guide inquiry and seek required information and data from a variety of sources (e.g., observations, interviews, print, electronic, and video resources)
 - summarize and focus personal knowledge of a topic to determine information needs
 - create and follow a plan to collect and record information within a pre-established frame
 - assess completeness and relevance of ideas and information
 - cite more than one source, when appropriate (Use two to three informational sources to research an assigned topic.)
 - evaluate the appropriateness of information for a particular audience, form, and purpose
 - identify gaps in information and collect and gather additional information
 - relate gathered information to prior knowledge to reach conclusion and develop point of view
 - recognize and avoid plagiarism
 - use the language of inquiry (e.g., “I wonder if...”, “What do I want to find out?”, “What do I need to do next?”).

English Language Arts 6

Assess and Reflect on Language Abilities (AR). Students will extend their abilities to assess and reflect on their own language skills, discuss the skills of effective viewers, representers, listeners, speakers, readers, and writers, and set goals for future improvement.

Outcomes

AR6.1 Consider which viewing, listening, reading, representing, speaking, and writing strategies work best for each task and situation.

AR6.2 Appraise own viewing, listening, reading, representing, speaking, and writing skills and strategies, and set goals for improvement.

AR6.3 Appraise own and others' work for clarity.

Indicators

- a. Reflect on speaking, writing, and other representing strategies used including relating work to criteria (e.g., a rubric), identifying what worked during the process, responding to feedback, setting realistic goals, and taking steps toward achieving goals.
- b. Assess personal language use, and set personal goals to enhance language learning and use.
- c. Use criteria and relevant vocabulary to assess viewing, listening, and reading activities, and set goals for each (e.g., What behaviours do I exhibit that tell others I am a good viewer, listener, or reader?).
- d. Reflect on the role of technology in learning and communicating.
- e. Review own and others' work for clarity, and give concrete suggestions for improvement.
- f. Assess own contributions to group process, and set goals for enhancing group work.
- g. Identify and analyze effectiveness of a variety of language strategies. Identify competency level of self as a viewer, representer, listener, speaker, reader, and writer.
- h. State appropriate and achievable improvement goals based on self-analysis; choose and apply strategies appropriate to improvement goals, and reflect on progress in achieving those goals.

Assessment and Evaluation of Student Learning

Assessment and evaluation require thoughtful planning and implementation to support the learning process and to inform teaching. All assessment and evaluation of student achievement must be based on the outcomes in the provincial curriculum.

Assessment involves the systematic collection of information about student learning with respect to:

- achievement of provincial curricula outcomes
- effectiveness of teaching strategies employed
- student self-reflection on learning.

Evaluation compares assessment information against criteria based on curriculum outcomes for the purpose of communicating to students, teachers, parents/caregivers, and others about student progress and to make informed decisions about the teaching and learning process. Reporting of student achievement must be based on the achievement of curriculum outcomes.

There are three interrelated purposes of assessment. Each type of assessment, systematically implemented, contributes to an overall picture of an individual student's achievement.

Assessment for learning involves the use of information about student progress to support and improve student learning, inform instructional practices, and:

- is teacher-driven for student, teacher, and parent use
- occurs throughout the teaching and learning process, using a variety of tools
- engages teachers in providing differentiated instruction, feedback to students to enhance their learning, and information to parents in support of learning.

Assessment as learning actively involves student reflection on learning and monitoring of her/his own progress and:

- supports students in critically analyzing learning related to curricular outcomes
- is student-driven with teacher guidance
- occurs throughout the learning process.

Assessment of learning involves teachers' use of evidence of student learning to make judgements about student achievement and:

- provides opportunity to report evidence of achievement related to curricular outcomes
- occurs at the end of a learning cycle using a variety of tools
- provides the foundation for discussions on placement or promotion.

The following pages show a sample holistic rubric for assessment and evaluation of the Comprehending and Responding, Composing and Creating, and Assessing and Reflecting goals for English language arts.

English Language Arts 6

Comprehend and Respond (CR)

Goal 1

Viewing, Listening, and Reading Assessment and Evaluation Criteria

Holistic Rubric

Level 6	Comprehends almost all of what is viewed, heard, and read and demonstrates a significant recall and thorough and insightful understanding of ideas, information, concepts, and/or themes.
Level 5	Comprehends most of what is viewed, heard, and read and demonstrates a good recall and clear understanding of ideas, information, concepts, and/or themes.
Level 4	Comprehends most of what is viewed, heard, and read and demonstrates an adequate recall and an adequate understanding of ideas, information, concepts, and/or themes.
Level 3	Comprehends the basic ideas of what is viewed, heard, and read and demonstrates only limited recall and a general understanding of ideas, information, and/or themes.
Level 2	Comprehends some of what is viewed, heard, and read and demonstrates an inadequate recall or limited understanding of ideas, information, concepts, and/or themes.
Level 1	Comprehends little or nothing of what is viewed, heard, and read and demonstrates little or no recall or understanding of ideas, information, concepts, and/or themes.

Compose and Create (CC)

Goal 2

Representing, Speaking, and Writing Assessment and Evaluation Criteria

Holistic Rubric

Level 6	The visual, multimedia, oral, or written composition is original and insightful . (Product is well-crafted, fully developed, and appropriate to purpose and audience. The student demonstrates confident control of the language elements of composition and presentation. Planning is evident, and the composition or presentation comes together as a secure whole. The few errors in mechanics are likely the result of risk taking.)
Level 5	The visual, multimedia, oral, or written composition is clear and thoughtful . (Product is fully developed and appropriate to purpose and audience. The student controls the language elements and techniques effectively. Planning is evident and the composition seems complete. The few mechanical errors do not impede communication.)
Level 4	The visual, multimedia, oral, or written composition is clear and straightforward . (Product is adequately developed, appropriate to purpose, and shows some awareness of audience. The student demonstrates control over the language elements and techniques. Planning identifies main ideas. Minor errors, though noticeable, do not impede audience understanding.)
Level 3	The visual, multimedia, oral, or written composition is satisfactory but unrefined . (Product is understandable but uneven in its development. It maintains the purpose on a basic level, but may not show awareness of audience. The student shows a basic control over the language elements and techniques. Some errors in mechanics may impede understanding.)

Level 2	<p>The visual, multimedia, oral, or written composition is limited and overgeneralized.</p> <p>(Product demonstrates uneven/uncertain control over the language elements relative to the purpose. It may not show awareness of audience. The student shows some control over the language elements and techniques, but attempts at complicated or sophisticated structures and variety results in awkwardness and/or obscured meaning. Less than adequate planning results in inconsistent development. Frequent mechanical errors impede understanding.)</p>
Level 1	<p>The visual, multimedia, oral, or written composition is unfocused and unclear.</p> <p>(Product is difficult to follow. The purpose is unclear, and the subject may be off topic. Evidence of planning is absent. The composition shows an uncertain grasp of the basic language elements relative to the purpose. Sentences are incomplete, run-on, or simple in structure. Frequent mechanical and structural errors impede understanding.)</p>

Assess and Reflect (AR)

Goal 3

Viewing, Listening, and Reading Assessment and Evaluation Criteria

Holistic Rubric

Level 6	<p>Executes task-relevant strategies before, during, and after a viewing, listening, or reading task; monitors use of strategies; explains which strategies are being used and why these strategies are being used; models strategies for others; explains what to do when comprehending and responding; identifies own strengths and learning targets; explains own strategies for improvement.</p>
Level 5	<p>Feels confident using task-relevant strategies before, during, and after a viewing, listening, or reading task in a variety of situations; utilizes a repertoire of strategies spontaneously and switches easily from one to another as determined by needs; may have difficulty explaining precisely the strategies to others.</p>
Level 4	<p>Demonstrates an awareness of a range of task-relevant strategies before, during, and after viewing, listening, or reading; senses when there is a comprehension breakdown and makes an effort to correct; uses a repertoire of responding behaviours but these may be hindered by comprehension breakdown.</p>
Level 3	<p>Is able to use, with practice and teacher support, some important before, during, and after viewing, listening, or reading strategies; understands the task and the necessary strategies but does not always deploy the strategies when they are needed; may not alternate or change strategies smoothly to have comprehension but can do so with support; responding behaviours may not be as well developed.</p>
Level 2	<p>Is able to use a few key before, during, and after viewing, listening, and reading strategies with teacher direction but does not always benefit from the strategies or apply them to new tasks; struggles to determine own needs and to select appropriate strategies; comprehension problems may hinder responding behaviours.</p>
Level 1	<p>Requires repeated modelling of before, during, and after viewing, listening, and reading strategies and requires continuous coaching on when and how to use them.</p>

English Language Arts 6

Assess and Reflect (AR)

Goal 3

Representing, Speaking, and Writing Assessment and Evaluation Criteria

Holistic Rubric

Level 6	Executes task-relevant strategies before, during, and after a representing, speaking, or writing task; monitors use of strategies; explains which strategies are being used and why these strategies are being used; models strategies for others; explains what to do when composing and creating; identifies own strengths and learning targets; explains own strategies for improvement.
Level 5	Feels confident using task-relevant strategies before, during, and after a representing, speaking, or writing task in a variety of situations; utilizes a repertoire of strategies spontaneously; uses strategies and aspects of the process spontaneously but not always able to explain what and why; identifies own strengths and possible learning targets
Level 4	Demonstrates an awareness of a range of task-relevant strategies before, during, and after representing, speaking, or writing; uses only some strategies appropriately or with confidence and independence; understands the task and the key strategies needed to complete the task successfully; has strengths but not assurance.
Level 3	Able to use, with practice and teacher support, some important before, during, and after representing, speaking, or writing tasks; understands the task and the necessary strategies but does not always deploy the strategies when they are needed; is developing strengths.
Level 2	Able to use only a few key before, during, and after representing, speaking, or writing strategies without teacher direction but may seldom benefit from the strategies or apply them to new tasks; few strengths.
Level 1	Requires repeated modelling of before, during, and after representing, speaking, and writing strategies and requires continuous coaching on when and how to use them; lacks independence and strategies to carry out task.

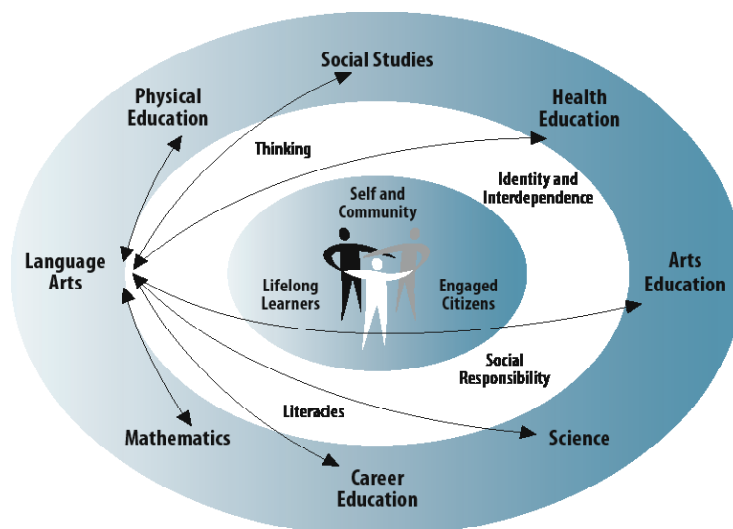

Sample Student Learning Tactic Targets			
Holistic Rubric			
	Comprehend and Respond	Compose and Create	Assess and Reflect
Level 4	I understand almost all of what I view, hear, and read. I can explain the explicit and implicit messages in a text. I can explain how the ideas are organized and how the conventions and techniques achieve a particular effect. I can provide an insightful interpretation and give strong evidence to support my response.	My compositions and presentations are original and insightful. The message demonstrates a deep understanding of the subject matter. It is well-crafted, fully developed, coherent, and appropriate to my purpose and audience. The language is consciously well chosen and well used.	I can confidently explain, monitor, and use a range of strategies before, during, and after I view, listen, read, represent, speak, and write. I can explain and model these strategies for others. I can also set goals to improve.
Level 3	I have a clear understanding of what I view, hear, and read. I understand the overall message, key ideas, and their supporting details. I have a clear understanding of how the text is organized and recognize the key conventions and techniques used to achieve an effect. I can provide a thoughtful interpretation and give reasonable evidence to support my response. I try to set goals to improve.	My compositions and presentations are clear and thoughtful. The message has a clear focus, and the details are relevant and appropriate for the audience and purpose. The message is sufficiently developed and logically sequenced. The language is appropriate, clear, and substantially correct.	I can confidently use a range of strategies before, during, and after I view, listen, read, represent, speak, and write. I understand the task and can use my strategies to successfully complete it. I cannot always precisely explain my strategies to others.
Level 2	I understand most of what I view, hear, and read. I understand most of the important ideas and details that support them. I recognize how the ideas are organized and the key conventions and techniques that are used. I give an adequate interpretation and provide some evidence to support it.	My compositions and presentations are clear and straightforward. The message is focused and the details appropriate for the audience and purpose. The message is planned and has a good sequence. The language is appropriate, clear, and substantially correct.	I can use and explain a number of the important strategies that I use before, during, and after I view, listen, read, represent, speak, and write. I understand the task and know how to use most of the strategies that I will need to complete the task successfully.
Level 1	I understand some of what I view, hear, and read but can't recall most of it. I do not always understand the conventions and techniques that are used. I usually give a simple or inadequate interpretation and give little evidence to support it.	My compositions and presentations are basic. They are not well planned or presented. The message is not always clear or well organized. The language is acceptable but not always clear, correct, or appropriate for my audience and purpose.	I can use and explain a few strategies that I use before, during, and after I view, listen, read, represent, speak, and write. I do not always understand the task or know which strategies I will need to use to complete it successfully.

See the Ministry of Education website for additional rubrics that provide criteria for assessment and evaluation of each of the three goals for English language arts.

Connections with Other Areas of Study

Although some learning outcomes or subject area knowledge may be better achieved through discipline-specific instruction, deeper understanding may be attained through the integration of the disciplines. Some outcomes for each area of study complement each other and offer opportunities for subject-area integration. Integrating language arts with another area of study can help students apply their language skills and strategies and deepen the breadth and depth of their language learning.

By using a particular context and identifying a common theme to use as an organizer, the outcomes from more than one subject area can be achieved and students can make connections. Integrated, interdisciplinary instruction in a thematic unit, however, must be more than just a series of activities. An integrated unit must facilitate students' learning of the related disciplines and their understanding of the conceptual connections. The unit must address each individual subject area's outcomes and ensure that in-depth learning occurs. If deep understanding is to occur, the unit cannot be based on superficial or arbitrarily connected activities (Brophy & Alleman, 1991). The outcomes and activities of one area of study must not be obscured by the outcomes or activities of another area of study (Education Review Office, 1996, p. 13).

See the Ministry of Education website for suggestions regarding opportunities where topics, concepts, and outcomes for different areas of study might be integrated.

Glossary

Contexts are broad organizers for balancing an English language arts program by ensuring different perspectives and ways of knowing are included at each grade level. All instructional units should be related to one or more of the five contexts identified in the English language arts curriculum. The five contexts are (i) personal and philosophical, (ii) social, cultural, and historical, (iii) imaginative and literary, (iv) communicative, and (v) environmental and technological. These contexts also allow for interdisciplinary integration.

Convention is an accepted practice or agreed-upon rule in spoken, written, or representational language.

Cueing Systems are sets of cues or clues built into the structure or patterns of language and communication texts.

Discourse is a continuous stretch of communication longer than a sentence.

Efficacy is producing or ensuring the desired effect; power or capacity to produce desired effect; effectiveness in operation; effective as a means of addressing an issue, question, challenge, or problem.

Genre is an identifiable category used to classify texts, usually by form, technique, or content (e.g., novel).

Grade-appropriate Texts are oral, visual, multimedia (including electronic), and print texts designated as being appropriate for shared, guided, and independent viewing, listening, and reading at a specific grade level. These texts are intended to reflect curriculum outcomes at different levels of difficulty, in different genres, and from different cultural and social perspectives.

Gradual Release of Responsibility (Scaffolding) is instructional support that moves students in stages from a high level of teacher support to independent practice.

Graphic Organizer is a visual means by which the relationships between and among ideas are portrayed (e.g., a Venn diagram).

Graphophonic cues and conventions refer to the sounds of speech (phonology) and how these sounds are organized in patterns, pronounced, and graphically represented (spelled).

Indicators are representative of what students need to know and/or be able to do in order to achieve an outcome. Indicators represent the breadth and the depth of the outcome. The list provided in the curriculum is not an exhaustive list. Teachers may develop additional and/or alternative indicators but those teacher-developed indicators must be reflective of and consistent with the breadth and depth that is defined by the given indicators.

Inquiry involves students in some type of “research” on a specific topic, problem, or issue for learning and action. Inquiry is a way of opening up spaces for students’ interests and involving them in as many different aspects of a topic, problem, or issue as students can find.

Language Literacy, in a contemporary view, is broader and more demanding than the traditional definitions that were limited to the ability to read and write. Literacy now includes the capacity to accomplish a wide range of viewing, listening, reading, representing, speaking, writing, and other language tasks associated with everyday life. It is multimodal in that meaning can be represented and communicated through multiple channels - linguistic (including print), visual, audio, and multimedia (including digital media).

English Language Arts 6

Listening is attending to and getting meaning from what is heard using cognitive processing including associating ideas, organizing, imagining, and appreciating what is heard; the receptive form of oral language.

Metacognition is the ability to think about and reflect on one's own thinking and learning processes.

Multimedia Texts are texts that use a combination of two or more media (i.e., audio, images, video, animation, graphics, print text, digital applications). Multimedia texts can encompass interactive texts and complex interactive simulations.

Other Cues and Conventions associated with effective communication include handwriting, font choices, graphics, illustrations, layout, and additional enhancements such as colour, sound, and movement.

Outcome is a statement of what students are expected to know and be able to do by the end of a course in a particular area of study at a particular grade level. Outcomes are not optional.

Portfolio Assessment is a compilation of evidence collected over time of a student's learning. It demonstrates the student's efforts, progress, and achievement. A portfolio can be cumulative, working/developmental, or showcase in nature.

Pragmatic cues and conventions refer to the style of language that is used in a given context and take into consideration the communication purpose, situation, and audience. The pragmatic cueing system is often considered to be the social aspect of language.

Questions for Deeper Understanding are questions that are thought provoking, probe a matter of considerable importance, and require movement beyond present understanding and studying. They often lead to other questions posed by students.

Reading is an interactive-constructive process in which readers comprehend, interpret, and respond to print text using the cues and conventions of that text.

Register (language) is a socially defined variety of language such as conversational, informal, formal, frozen, or slang.

Representing is conveying information or expressing oneself using verbal or written means as well as non-verbal visual means such as drawings, models, graphics, photography, dramatization, video, or physical performance.

Rubrics offer criteria that describe student performance at various levels of proficiency. They provide guidelines for judging quality and make expectations explicit. Holistic (yield a single score or rating) and analytic (yield feedback on specific dimensions or features) rubrics can be used to judge the degree, understanding, or proficiency revealed through students' products or presentations.

Semantic, Lexical, and Morphological Cues and Conventions refer to the meaning and structure of words.

Skill is an acquired ability to perform well and proficiently.

Speaking is the act of communicating through oral language. It is the act of transmitting and exchanging information, ideas, and experiences using oral language in formal and informal situations. Speech is the expressive form of oral language.

Strand is one of the core elements of an integrated English language arts program. The six language strands identified in this curriculum are viewing, listening, reading and representing, speaking, and writing.

Strategy is a systematic plan for solving a problem or executing a task.

Syntactical cues and conventions refer to the structure (word order) and parts of sentences, and the rules that govern the sentences (e.g., subject-verb agreement).

Text is any form of communication, whether oral, written, visual, or multimedia (including digital media), that constitutes a coherent, identifiable unit or artefact (e.g., poem, poster, conversation, model) with a definable communicative function. It refers to printed communications in their varied forms; oral communicating, including conversations, speeches, dramatizations; and visual communications such as illustrations, video, and computer displays.

Textual cues and conventions refer to the type or kind of text and the features that are associated with its organization.

Theme is an overarching idea, question, or topic that is developed in a unit and provides a focus and frame for the unit. The theme acts as a unifying concept through which all the content, skills, strategies, materials, and actions for both teachers and students can be organized.

Unit (an instructional unit) is a focused and organized block of time that helps students through a variety of experiences, lessons, and texts. It is planned to help students achieve a set of outcomes for an area of study. A multi-genre thematic or topical unit is built around a theme or topic and includes a range of oral, visual, multimedia (including electronic), and print texts. A multi-genre inquiry unit is built around important questions or issues that students want to learn more about through research. A genre unit is focused on a specific genre of text (e.g., narrative) and an author unit is focused on the work of a particular author or illustrator.

Viewing is attending to and getting meaning from communication conveyed by visual representation including pictures, signs, video, charts, drawings, diagrams, sculptures, mime, tableau, drama/dance, and performances.

WCPM stands for Words Correct per Minute.

Writing is a recursive process of recording language graphically by hand or other means to explore and communicate ideas, information, and experiences; the writing process consists of many aspects including planning, drafting, revising, and publishing.

Feedback Form

The Ministry of Education welcomes your response to this curriculum and invites you to complete and return this feedback form.

Document Title: **English Language Arts Grade 6 Curriculum**

1. Please indicate your role in the learning community

- parent teacher resource teacher
 guidance counsellor school administrator school board trustee
 teacher-librarian school community council member
 other _____

What was your purpose for looking at or using this curriculum?

2. a) Please indicate which format(s) of the curriculum you used:

- print
 online

b) Please indicate which format(s) of the curriculum you prefer:

- print
 online

3. How does this curriculum address the needs of your learning community or organization? Please explain.

4. Please respond to each of the following statements by circling the applicable number.

The curriculum content is:	Strongly Agree	Agree	Disagree	Strongly Disagree
a. appropriate for its intended purpose	1	2	3	4
b. suitable for your learning style (e.g., visuals, graphics, texts)	1	2	3	4
c. clear and well organized	1	2	3	4
d. visually appealing	1	2	3	4
e. informative	1	2	3	4
