

Partnerships

The NESD takes pride in the collaborative work with other agencies in their communities. Each school's intake committee encourages outside agencies to be involved in referring children and sharing their knowledge. Some of the agencies the NESD are directly involved with include: NEECIP, Saskatchewan Health Authority, Social Services, Easter Region II, KidsFirst, and North East Daycares.

Throughout the school year, each program will actively involve various community members and outside agencies to provide presentations and support to the prekindergarten program.

Program Contacts

Central Park Elementary School

Box 1928 Tisdale, SK S0E1T0

PREKINDERGARTEN PROGRAMS

North East School Division
#200
Education in a Culture of Excellence

PHONE: 306-752-5741

What do we learn in Pre-K?

Young children learn in holistic ways. They do not separate their learning into categories or subjects. Everything they learn and experience builds on previous knowledge. Children learn in multiple ways to construct understanding of the world around them. This learning occurs through the four developmental domains:

Children develop as whole persons whose modes of learning are interrelated. Learning and development in one domain can influence learning and development in other domains. This is holistic development.

Who is Prekindergarten For?

The NESD Prekindergarten programs support vulnerable children between the ages of 3 and 5, who meet the criteria determined by the school division. Contact your school within your community and speak to the administrator or prekindergarten teacher, and they can assist you in reviewing this criteria to determine if your child will qualify for the program. (Schools are listed on back of this brochure).

Family Involvement

Each of the prekindergarten programs provide a wide range of opportunities for the families to be involved with their children's very first educational experience. Although there is an open door policy and families are invited to be involved any time, a minimum of one day is set aside each month that encourages families to participate in the program and play and learn along side their children. This allows parents to be involved in an activity to do with their child, experience the learning their child is enduring through observation, or just enjoy the opportunity to meet and associate with other families and the classroom teacher.
